Introduction

The Yurok Tribe is looking for a lab to analyze water samples in the Klamath River for February 2016 to December 2017.

Tasks

1. Prepare sample bottles including adding any preservatives necessary and deliver sample bottles at least one week before the sample event is to occur to:

Yurok Tribe Environmental Program
Attn: Matthew Hanington
190 Klamath Blvd.
Klamath, CA 95548

2. Analyze water samples for the following parameters, unless otherwise noted on COC and communicated with lab personnel:

TOTAL-P
SRP
TOTAL-N
NITRATE + NITRITE
AMMONIA
CHLa/PHAEOa
DOC
TSS
VSS
ALKALINITY
TURBIDITY

Methodology should be EPA approved. Please provide the methodology for each test with the bid.

3. Contracted Lab to provide results in Excel spreadsheet format to Micah Gibson within one month of receiving samples from Yurok Tribe Environmental Program.

Deliverables

The primary deliverable for task 2 and 3 is to be an Excel spreadsheet containing data for the samples that were submitted for the analyses stated in task 2. The delivered data would also include the lab's QA methodology results and any other important information pertaining to the results of the water and samples submitted to contracted lab.

Timeline

The Yurok Tribe Environmental Program will occur monthly from February to December, with sampling events occurring twice a month from May through October.

Evaluation Criteria

Evaluation of bid is based upon: 1. the ability to provide results with the approved methodology. 2. Price analysis. 3. Ability to provide results within 30 days. 4. All proposals are subject to the Yurok Tribe's tribal hiring preference.

Submittal

Please email bids and questions to Mhanington@yuroktribe.nsn.us
