Signatures of Environmental Professionals

The following Environmental Professionals performed this Phase I ESA in conformance with ASTM Standard Practice E 1527-05 and AAI Standards. The following individual(s) meet the qualifications for individuals completing or overseeing all appropriate inquiries, and possess sufficient specific education, training, and experience necessary to exercise professional judgment to develop opinions and conclusions regarding the existence of environmental conditions on the property. Any work completed on this ESA by an individual who is not considered an environmental professional was completed under the supervision or responsible charge of the environmental professional.

EXECUTIVE SUMMARY

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM E 1527-05 at the Subject Property, located on 101 Alder Camp Road, APN 140-101-06 near Klamath, California. This assessment has revealed the following conditions in connection with the Subject Property:

- Former use of the Subject Property as an automotive filling Station with two Underground Storage Tanks (USTs) that have not been removed.
- Former use of the Subject Property as a Service Station with a hydraulic lift that has not been removed.
- Former use of the Subject Property as a residential rental property.
- Former use of the Subject Property as a storage yard.

In our opinion, the above stated conditions, including the existing USTs and the existing hydraulic lift, would be considered Recognized Environmental Conditions (RECs). The following report will outline the procedures used during this Site Assessment, the physical findings, the historical findings and present uses of the property.

1.0 INTRODUCTION

The Yurok Tribe Environmental Program has prepared this Phase I Environmental Site Assessment (Phase I ESA) on the Old Townsite 1 property, located on 101 Alder Camp Road, near Highway 101, near Klamath, California (hereafter referred to as the Site, or Subject Property). This Phase I ESA was prepared for the exclusive use of the Yurok Tribe located in Klamath, California and the United States Environmental Protection Agency (USEPA) Region 9 Brownfields Program.

This Phase I conforms to the principals of ASTM E 1527-05 "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process" (ASTM, 2005).

This report is organized as recommended in ASTM E1527-05.

1.1 Purpose

The Purpose of this Phase I ESA is to define good commercial and customary practice for *All Appropriate Inquiries*. It is also to identify any Recognized Environmental Conditions (RECs) associated with the Subject Property. An REC is defined by ASTM as the presence or likely presence of any hazardous substance or petroleum products on a property under conditions that indicate an existing release or a material threat of release of any hazardous substances and petroleum products even under conditions in compliance with law.

This report will include listings of historic RECs if applicable. A historical REC is an environmental condition which, in the past would have been considered a REC, but which may or may not be considered a REC currently.

RECs do not include *de minimis* conditions that generally would not be subject to any enforcement action if brought to the attention of appropriate agency.

1.2 Detailed Scope of Work

This Phase I ESA conforms to the principals of work described in ASTM E1527-05. The Scope of Work is as follows:

a) The objective of the Phase I Environmental Site Assessment is to determine any potential environmental problems that may have an adverse effect on the subject site. Should no problems be encountered, no further subsurface testing will be required (i.e. installing groundwater monitoring wells, soils and/or groundwater analyses, etc.).
b) A site investigation of the subject property will be conducted. This includes an inspection of the structure and various rooms of any building for the purpose of locating suspected asbestos materials as well as possible hazardous wastes on the grounds of the site. The site investigation will attempt to locate buried storage tanks, transformers and drywells (if any), in order to determine if any related environmental problems may exist.
c) A survey of adjacent properties will be conducted to assess past and current land use.
d) A review of the following databases and publications will be undertaken:

i. The Yurok Tribe Environmental Program has contracted with Environmental Data Resources (EDR), a company that specializes in the acquisition and compilation of local, state and federal environmental records, to acquire the ASTM required records.
ii. Pertinent County and/or other local ascertainable environmental regulatory records.

(These databases and publications are examined in order to ascertain whether any hazardous wastes, landfills, oil spills or any related problems exist at the subject site or in the vicinity of the subject site.)

e) Soil and groundwater conditions report from all available environmental sources.
f) Extraction of samples (i.e. Potential Asbestos Containing Material, lead based paint, etc.), as required by the Tribe (if necessary).
g) Conclusions and recommendations based upon the data collected.
h) Evaluation of reported cost estimates for remediation of the property (if necessary).
i) Submission of Phase One Environmental Site Assessment Report conforming to ASTM Standard E-1527.

1.3 Significant Assumptions

It is assumed that the groundwater flow direction on the vicinity of the Subject Property is toward the west, towards the Klamath River, based on sloping topography on the vicinity of the Subject Property.

1.4 Limitations and Exceptions

"No environmental site assessment can wholly eliminate uncertainty regarding the potential for the recognized environmental conditions in connection with a property. Performance of this practice is intended to reduce, but not eliminate, uncertainty regarding the potential for recognized environmental conditions in connection with the property" (ASTM, 2005). The information included in this report is based on professional opinions from our field reconnaissance, visual observations of the Subject Property, our review and interpretation of available historic information as described in this report and any contractual limitations.

1.5 Special Terms and Conditions

No special terms or conditions are related to this investigation.

1.6 User Reliance

This report was prepared solely and exclusively for the users of this report, the Yurok Tribe located in Klamath, California and the USEPA Region 9 Brownfields Program. The scope of work performed in this investigation may not be appropriate to satisfy the needs of others. Any use of this document and findings as at the sole risk of the said users of this report.

2.0 SITE DESCRIPTION

2.1 Location and Legal Description

The Subject Property is located in the Old Klamath Town site, west of Highway 101, in the vicinity of Klamath, located in Del Norte County, California. The parcel is located on the North side of Alder Camp Road. The parcel is approximately one quarter mile east of the Klamath River.

The legal description of the Subject Property is defined as: Lot 1 and 2, Block 2 of TOWN OF KLAMATH, Del Norte County, California. Property Identifier (APN): 140-101-06. The property size is approximately 12,000 square feet (0.28 acres).

2.2 Site and Vicinity General Characteristics

The Site is accessible from Alder Camp Road, which is an artery of Chapman Road, an artery of Highway 101, in Klamath, California.

The Subject Property is currently vacant land on the Yurok Indian Reservation. The Site is primarily concrete. The property is primarily covered in vegetation. The properties surrounding the Site are also vacant land, and are generally covered by vegetation. There are the remnants of a former service station: a hydraulic lift remains in a partially up position, former fuel islands, evidence of USTs. There is a large pile of soil on the property.

2.3 Current Use of the Property

The Subject Property is currently vacant developed land.

2.4 Description of Structures, Roads, Other Site Improvements

The Subject Property is a vacant developed lot. It is accessible from Alder Camp Road, which is a paved road in the Old Klamath Town Site. The former structures are no longer present on the Site. The remaining improvements on the Site include: concreted pad, telephone pole, utility box, a partially elevated hydraulic lift, ventilation holes in the concrete for USTs, septic drain on property, water service to the Site.

2.5 Current Use of Adjoining Properties

The adjacent properties are developed vacant lots. These lots were former businesses that are no longer in existence. The former structures are no longer present on the adjoining properties. The properties are mostly concrete or asphalt pads and are mostly covered in vegetation.

3.0 USER PROVIDED INFORMATION

3.1 Title Records

There is no property transaction with the owner, Larry Hendrix, currently in process with the Subject Property. Therefore a title report has not been ordered.

3.2 Environmental Liens or Activity Use Limitations

Prior to the 1964 flood, the property was zoned commercial. After the 1964 flood the properties in the Old Klamath Town Site, including the Subject Property, were rezoned for seasonal recreational use only. Seasonal use requires a seasonal use permit issued through the County of Del Norte County Planning department. The seasonal use permit allows for camping and recreational activities only. These permits must be renewed on a yearly basis.

3.3 Specialized Knowledge

Larry Hendrix has stated that the property was a former Automobile Service Station. He also stated that the underground storage tanks have never been removed.

3.4 Public Outreach Meeting Results

An essential part of the Phase I ESAs is the collection of historical knowledge directly from Yurok Tribal Members and residents of the Yurok Tribe Indian Reservation about each of the Brownfields sites including this Site. Maps and aerial photographs of the proposed Brownfields Sites were provided prior to and during the meetings and the participants were encouraged to note information directly onto the maps and photographs, as well as completing the questionnaires to capture information from the community.

The Requa District Meeting was attended on February 28, 2010 at the Yurok Tribal Office in Klamath, California. An attendee list is provided in Appendix B. Aerial maps, site pictures, former deeds and parcel maps were made available for viewing. Although there was institutional knowledge of the Old Klamath Town site, none of the meeting participants were familiar with the Subject Property or the former owners. The last time the Subject Property was developed was in 1964. At the time of the district meeting and this writing, it had been 46 years since there was a viable commercial operation on the Site. It was noted that several participants were in agreement that the Old Klamath Town site, including the Subject Property, was completely washed out by the 1964 flood. It was also noted that in the years prior to the flood the Subject Property was in the general vicinity of many businesses, including gas stations and service stations.

3.5 Commonly Known or Reasonably Ascertainable Information

It is commonly known that in December 1964, a flood event occurred in the Lower Klamath River area. It is also commonly known that this flood washed away the Old Klamath Townsite, leaving the area inhospitable. It is also known that the Old Klamath Townsite has not been rebuilt since the 1964 flood. The Subject Property has in the past been used as a residence.

3.6 Valuation Reduction for Environmental issues

The intention of this document is to evaluate the potential impacts of RECs on Tribal Lands within the Yurok Tribe Indian Reservation. Any reduction in the value of the property is unknown, and therefore not relevant to this report.

3.7 Owner, Property Manager and Occupant Information

Larry Hendrix, representative of the Subject Property owner, himself, provided responses to an environmental questionnaire. The completed questionnaire is included in Appendix B. Mr. Hendrix indicated that he is the owner of the Subject Property, and it is located in the Old Klamath Town site. He was not aware of any permanent structures that were in existence on the Site. According to the County of Del Norte County, the title was vested to Larry Lane Hendrix on June 6th, 1997. According to the County of Del Norte County Assessor's office, the Subject Property was previously occupied by Earl and Carol Hensel. Prior to the 1964 flood, there was an Automobile Service Station business, Floyd Douglass Texaco, on the Subject Property.

3.8 Reason for Performing Phase I ESA

The Yurok Tribe, user of this report, indicated that the reason for performing a Phase 1 ESA is to ensure that possible contamination does not threaten public health and the environment during and after redevelopment of the Site. The Yurok Tribe has selected this Site to be evaluated under the USEPA Brownfields Program.

4.0 RECORDS REVIEW

4.1 Standard Environmental Record Sources

The Yurok Tribe Environmental Program has contracted with Environmental Data Resources (EDR), a company that specializes in the acquisition and compilation of local, state and federal environmental records, to acquire the ASTM required records. EDR has provided a Radius Map Report, which is provided in Appendix C. EDR searched the Subject Property and surrounding area for standard environmental records as required by ASTM E1527-05. A complete listing of the databases searched and the radius searched are included in the EDR Radius map report.

The Subject Property is not listed on any of the databases reviewed by the EDR report. Other sites listed in the EDR report include the following:

- Yurok Indian Reservation do not have a listed addresses and are listed on the "Indian Reservation" database indicating the presence of Indian administered lands that have an area of greater than or equal to 640 acres.
- A leaking underground storage tank (LUST) was reported within ¼ - ½ mile of the Subject Property. The Texaco, Klamath Highway 169 299 site was cleaned up and the case closed by the North Coast RWQCB on April 17, 2007. The LUST site was located at a relatively lower elevation of 25 feet, 6 feet lower that the 31 foot elevation of the Subject Property.
- A Spills Leaks Investigation and Cleanup (SLIC) site was reported to the North Coast RWQCB on September 8, 2008. It was reported that the former Simpson Timber Company had a diesel spill that may impact ground water quality. As of the writing of this document, the case still remains open, and is under investigation. No action has been completed. The SLIC site is located at a relatively higher elevation of 33 feet, 2 feet higher that the 31 foot elevation of the Subject Property.

4.2 Additional Environmental Record Sources

No additional resources for the Subject Property were available for review.

4.3 Physical Setting Sources

The 1997 United Stated Geological Survey (USGS) 7.5 minute map entitled REQUA, California, which includes the Subject Property and surrounding area was reviewed and is included in Figure 3. The Subject Property is at an elevation of 31 feet above mean sea level. The Subject property is in a flat area that is located on a flat river bar. The topography of the area around the Subject Property generally slopes to the west. The nearest streams shown on the USGS topographic map are the Klamath River, that runs from the south of the Property to the Pacific Ocean and Hoppaw Creek, which runs south of the property and empties into the Klamath River.

4.4 Historical Use Information on the Property

Information in this section of the report is based on acquisition and review of various historical sources, including historic aerial photographs, historic topographic maps, and interviews with local officials. City Directory data and Sanborn Fire insurance maps were not available with coverage for the Subject Property.

Based on a review of historical data sources, the oldest documentation of the Subject Property is a 1958 Del Norte County commercial property appraisal record supplied by Del Norte County beginning with assessment year 1958. The 1958 property assessment indicates that the business was one year old in that year. The 1958 Del Norte County aerial photograph shows the Subject Property with what appears to be development on the Site.

4.4.1 EDR Historic Aerial Photographs

Aerial photographs from 1964, 1978, 1982, 1993 and 2005 were provided by EDR. Copies of the aerial photographs are included in Appendix D. The aerial photographs were reviewed and the following observations were made:

- 1964: From this photograph, what appear to be structures are visible on the Subject Property. This photograph shows the town site before the December 1964 flood. Visible is the still intact old Highway 101 bridge and the old Klamath Town site.
- 1978: From this photograph, the old town site is visible, but undeveloped. A result of the December 1964 flood. The Subject Property appears to have a structure on it.
- 1982: From this photograph, the old town site is visible, but undeveloped. A result of the December 1964 flood. The Subject Property appears to be vacant.
- 1993: From this photograph, the old town site is visible, but undeveloped. A result of the December 1964 flood. The Subject Property appears to have a structure on it.
- 2005: The Subject Property shows what appears to be a structure. There appears to be heavy vegetative growth on the North end of the property.

4.4.2 Other Historic Aerial Photographs

Aerial photographs from 1958, 1963, 1972, 1975, 1996 and 2003 were provided by the County of Del Norte County. Copies of the aerial photographs are included in Appendix D. The aerial photographs were reviewed and the following observations were made:

- 1958: From this photograph, what appears to be a structure is visible on the Subject Property. This photograph shows the town site before the December 1964 flood. Visible is the still intact old Highway 101 bridge and the old Klamath town site.
- 1963: From this photograph, what appears to be a structure is visible on the north end of the Subject Property. This photograph shows the town site before the December 1964 flood. Visible is the still intact old Highway 101 bridge and the old Klamath town site.
- 1972: From this photograph, the old town site is visible, but undeveloped. A result of the December 1964 flood. The Subject Property appears to have a structure on it.

- 1975: The Subject Property appears to have a structure on it.
- 1996: From this photograph, the old town site is visible, but undeveloped. A result of the December 1964 and 1995 flood. The Subject Property appears to have a structure on it.
- 2003: From this photograph, the old town site is visible, but undeveloped. A result of the December 1964 and 1995 flood. The Subject Property appears to have a structure on it.

4.4.3 Historic Topographic Maps

Historic Topographic Maps from 1947, 1952, 1966, and 1997 of the Subject Property and surrounding area were provided by EDR. Copies of the topographical maps are included in Appendix E. The topographic maps were reviewed and the following observations were made:

- In the 1947 topographic map, the old Klamath Town Site can be seen with developments along Alder Camp Road, including in the vicinity of the Subject Property.
- In the 1952 topographic map, the old Klamath Town Site can be seen with developments along Alder Camp Road, including in the vicinity of the Subject Property.
- In the 1966 topographic map, there no longer appears to be any structures in the vicinity of the Subject Property.
- In the 1997 topographic map, there appears to be a structure in the vicinity of the Subject Property.

4.4.4 Historic City Directories

Historic city directory data was not available with coverage for the town of Klamath. Documentation of the lack of coverage is included in Appendix F.

4.4.5 Sanborn Fire Insurance Maps

Historic Sandborn Fire Insurance Maps were not available with coverage for the Subject Property. Documentation of the lack of coverage is included in Appendix G.

4.5 Historical Use Information on Adjoining Properties

Based on historical information, the adjacent properties have remained vacant and undeveloped since the time of the 1964 flood. Prior to that, the adjacent businesses were a supermarket and an auto court.

4.6 Data Failure

Historical records tracking the development for the Subject Property date back to 1958. Topographic maps of the region date back to 1947. The earliest development for this property is shown in the 1947 Klamath Topographic Quad. The County Of Del Norte County's property records date back to 1958. The available historical data fails to identify the historical uses of the property prior to 1947. This creates a data gap between the years 1940 and 1947. Historic records indicate the modern town of Klamath was first developed in 1851, then was abandoned in 1852. It was reestablished in 1926, and was flooded in 1955 and 1964. After the 1964 flood, most of the town's inhabitants left.

5.0 SITE RECONNAISSANCE

5.1 Methodology and Limiting Conditions

The Subject Property was inspected by Ray Martell of the Yurok Tribe Environmental Program on February 11th and April 8th, 2010. Mr. Ken Henderson, of the Yurok Tribe, escorted Mr. Martell on February 11th, 2010. The entire property was viewed. The Site was inspected by walking the parameter and interior of the Subject Property. There were limiting conditions that visually and/or physically interfered with the observation of the entire Site. The Subject Property is currently vacant, formally developed land. The entire property appears to have a foundation of cement. There is an overgrowth of blackberry shrubs that prevented the entire site to be inspected. There was a pile of fill dirt that is stockpiled on the property. The pile is approximately three feet high and 40 feet long. This stockpile limited the ability to observe any vents, well covers, tank covers or other utilities that could be otherwise visible.

The Subject Property was formally inspected on June 8th, 1999 by former YTEP employee John Melvin. Photographs taken during that site visit was available for review. During that site visit, the Subject Property was more accessible due to the fact that there was less overgrowth on the property. During that visit, there were three travel trailers present on the property. The following were observed on the Subject Property: power pole with power lines connected to it, what appears to be running water, sewer connections, an abandoned trailer and what appears to be a filler cap in the concrete.

Photographs from the Site inspection are included in Appendix H.

5.2 General Site Settings

The Subject Property currently consists of vacant formally developed land. The entire property is relatively flat. There is vegetative growth throughout the property. The Site is bordered by two developed roads, Chapman Street to the east and Alder Camp Road to the south. There is overhead electric power available to the property owners of the Old Klamath Town Site.

5.3 Exterior Observations

The Subject Property currently consists of vacant formally developed land. The Subject Property was overgrown with blackberry bushes, making it difficult to traverse the entire site. The property is paved with concrete, indicating that it was previously developed with structures. The concrete pad on the western half of the property boundary is elevated approximately two feet high. This was a shared common wall the adjacent property to the west. There is a large stockpile of dirt on the eastern half of the property. In an interview with the current property owner, Larry Hendrix, stated that the fill dirt on the Subject Property was relocated from the excavation of the new Yurok Tribal Office built in 2002. It is approximately 40 feet in length by 3 feet in height and is piled on the east side of the property.

There is a power pole located in the center of the property, but is no longer in service. There is currently no power lines connected to the pole, and the meter box is dismantled. The last known use of power on this property is documented in photographs that were dated in June of 1999. Additionally, it appears that the power pole may have been scorched in a fire. There is a power pole on the Alder Camp Road right of way that services other properties in the vicinity, but there are no lines servicing the Subject Property.

What appear to be wooden walls or ceilings from a former structure(s) are lying down in different areas of the Site. There is also an old travel trailer frame on the south east portion of the property.

Evidence that this site was a former automotive service station is the presence of a hydraulic lift that is partially erect. The lift is located on the southern portion of the property. There are also several holes drilled in to the concrete floor. The three holes are approximately 2 inches in diameter and are spaced approximately 12 inches apart.

The area surrounding the Subject Property is vegetated and relatively flat. Alder Camp Road is a paved road that borders the southern portion of the property.

The Subject Property was inspected visually, and was found not to have any pits, ponds, lagoons, stained soils, stresses vegetation, noxious odors or aboveground storage tanks.

Photographs from the Site inspection are included in Appendix H.

5.4 Interior Observations

There are no structures on the Subject property.

6.0 INTERVIEWS

6.1 Interviews with Owners

The owner of the Site, Mr. Larry Hendrix, provided responses to an environmental questionnaire. A copy of the questionnaire is contained in Appendix B. Mr. Hendrix indicated that the property was unoccupied at the time of purchase. Mr. Hendrix was aware of the former service station situated on the property prior to the 1964 flood. Although Mr. Hendrix occupied the property up until recently, he was not aware of, or informed of, the limitations that were placed on the property subsequent to the 1964 flood. After the 1964 flood the properties in the Old Klamath Town Site, including the Subject Property, were rezoned for seasonal recreational use only. Seasonal use requires a seasonal use permit issued through the County of Del Norte County Planning department. The seasonal use permit allows for camping and recreational activities only. These permits must be renewed on a yearly basis.

6.2 Interview with Past Owners

On April 8th, 2010, former property owner Carol Hensel provided the following information via telephone interview. She indicated that they purchased the property in the mid 1980's (Del Norte County records show the property was purchased by the Hensel's in 1973). She indicated that they were aware of the potential for underground tanks on the property. She also indicated that removing them was on no concern to them. They occupied the property, unaware of any use limitations imposed by the County of Del Norte County. No enforcement action has ever been taken by the County of Del Norte County.

6.3 Interview with Site Manager

Mr. Larry Hendrix, the Site owner, is also the Site manager, as described in Section 3.7 and 6.1.

6.4 Interviews with Occupants

There are currently no occupants on the Subject Property. An interview with the owner regarding the prior occupation of the Subject Property was conducted on May 13th, 2010. That interview is cited in Section 6.1.

6.5 Interviews with Local Government Officials

On January 15th, 2010, Del Norte County Senior Planner Heidi Kunstall provided the following information. Septic system permits were not required prior to 1961. Therefore there are no records of the Subject Property being licensed for commercial or residential use prior to 1958 by then owner Harold Hansen. Therefore was not subject to permitting requirements for onsite residential septic systems or building permits. In 1959, the County began appraising the properties in the Klamath Town Site for tax purposes. After the 1964 flood, all the properties in the Old Klamath Town Site were rezoned as *seasonal use only,* and were subject to a use permit issued through the County of

Del Norte County. This seasonal use permit limits the activities on the properties to camping and outdoor recreation. No permanent infrastructures or structures shall be permitted on these parcels. On March 9th, 2010, Del Norte County Environmental Health Specialist Brian McNally confirmed that no records for the Subject Property regarding drinking water or waste water systems exist.

7.0 DEVIATIONS

There were no significant deviations from ASTM E 1527-05.

8.0 FINDINGS

The assessment has identified the following environmental findings:

- The Subject Property was a commercial establishment that operated from at least 1958 until December 1964. It was previously an automotive filling and service station.
- The Subject Property had one pump island with two pumps.
- There were two 2,500 gallon underground petroleum storage tanks. The two tanks were never removed after the facilities were destroyed in the 1964 flood.
- There was one hydraulic lift for automotive service. The lift was never removed after the facilities were destroyed in the 1964 flood.
- In 1966, the Subject Property was reoccupied as a residential property, with power, water and septic.

9.0 OPINION

Based on the consideration of the following conditions, the following findings would likely rise to the level of regulatory enforcement and for this reason these conditions are all Recognized Environmental Concerns (RECs). In my opinion, the observations stated below rise to the level of Recognized Environmental Concerns (RECs).

- When the Subject Property was an automotive filling station, there were two 2,500 gallon petroleum underground storage tanks. The two tanks were never removed after the facilities were destroyed in the 1964 flood. The potential for petroleum contamination exists.
- When the Subject Property was an automotive service station, there was a hydraulic lift in use. The hydraulic lift was never removed after the facilities were destroyed in the 1964 flood. The potential for petroleum contamination exists.

Qualifications of the environmental professional(s) that prepared this report are included in Appendix H.

10.0 CONCLUSIONS

We have performed a Phase 1 Environmental Site Assessment in conformance with the scope and limitations of ASTM E 1527-05 at the Subject Property, located on 23 Alder Lane, APN 141-222-07 near Klamath, California. Any exceptions to, or deletions from, this practice are described in Section 2 of this report. This assessment has revealed the following Recognized Environmental Concerns in connection with the Subject Property:

- Former use of the Subject Property as an automotive filling Station with two petroleum Underground Storage Tanks (USTs) that have no record of being removed.
- Former use of the Subject Property as a Service Station with a hydraulic lift that has not been removed.
- Former use of the Subject Property as a residential and rental property, with a septic system.
- Former use of the Subject Property as a storage yard for large equipment.

This assessment has revealed historical recognized environmental conditions in connection with the property.

It is recommended that the Tribe perform a Phase II Environmental Site Assessment on the Subject Property. This would include further investigation as to the location of the USTs and Hydraulic lift, as well as the removal and further testing of the soils to determine if any further remediation is needed.

11.0 ADDITIONAL SERVICES

No additional environmental services were provided under this contract.

EDR Environmental LienSearch™ Report

The EDR Environmental LienSearch Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

ENVIRONMENTAL QUESTIONNAIRES

Yurok Tribe Environmental Program: Environmental Questionnaire

User / Client:

Date: 5/13/10

Name: LARRY HENDRIX

Title: OWNER

Organization: SELF

Status:

☒ Client / Owner

☐ Site manager

☐ Occupant

☐ Government Official

☐ Other: *explain* _____

What is the reason the Phase I is required?

SITE CLEAN UP

What is the current use of the property?

STORAGE

What type of property transaction is this?

- ☐ Sale
- ☐ Purchase
- ☐ Exchange
- ☒ Other: *explain* NONE

Have you engaged a title company or professional to review recorded land title records and lien records?

- ☐ Yes
- ☒ No

If yes, describe:

What were the results of the title review?

N/A

Are any services beyond the requirements of Practice E1527 (Phase I ESA) required?

- ☐ Yes
- ☒ No

If yes, describe:

Who is the site contact for the property?

LARRY HENDRIX

How can the site contact be reached?

707-482-1350

Who is the owner of the property?

LARRY HENDRIX

Who are the occupants of the property?

NONE

Do any of the parties to the property transaction have a required standard scope of service?

☐ Yes

☒ No

If yes, describe:

Are you aware of any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry?

☒ Yes

☐ No

If yes, describe:

NO YEAR ROUND OCCUPANCY

As the user of this ESA do you have any specialized knowledge or experience related to the property or nearby properties?

☒ Yes

☐ No

If yes, describe:

80 foot modular at time.

Does the purchase price being paid for this property reasonably reflect the fair market value of the property? If not, have you considered whether the price difference is due to contamination?

☐ Yes

☐ No

Additional Information:

N/A

Do you know the past use of this property?

☒ Yes

☐ No

If yes, describe:

SERVICE STATION. FUEL STORAGE TANK, PUMP ISLAND, Hydraliac Lift, H_2O FROM SERVICE DIST. SEPTIC SYSTEM

Do you know of specific chemicals that are present or once were present at the property?

☐ Yes

☒ No

If yes, describe:

_____

_____

_____

Do you know of any spills of other chemical releases that have taken place at the property?

☐ Yes

☒ No

If yes, describe:

_____

_____

_____

Do you know of any environmental clean ups that have taken place at the property?

☒ Yes

☐ No

If yes, describe:

AFTER FLOODS, 1964, 1995

_____

_____

As the user of the ESA, based on your knowledge and experience related to the property, are there any indicators that point to the likely presence of contamination at the property?

☒ Yes

☐ No

If yes, describe:

FORMER FUEL TANKS POSSIBLY STILL PRESENT.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

TARGET PROPERTY INFORMATION

ADDRESS

101 ALDER CAMP ROAD
KLAMATH, CA 95548

COORDINATES

Latitude (North):	41.526600 - 41° 31' 35.8''
Longitude (West):	124.038300 - 124° 2' 17.9''
Universal Tranverse Mercator:	Zone 10
UTM X (Meters):	413373.1
UTM Y (Meters):	4597525.0
Elevation:	31 ft. above sea level

USGS TOPOGRAPHIC MAP ASSOCIATED WITH TARGET PROPERTY

Target Property Map:	41124-E1 REQUA, CA
Most Recent Revision:	1966

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

State and tribal leaking storage tank lists

LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the State Water Resources Control Board Leaking Underground Storage Tank Information System.

A review of the LUST list, as provided by EDR, and dated 12/21/2009 has revealed that there is 1 LUST site within approximately 0.5 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
TEXACO, KLAMATH Status: Completed - Case Closed	HIGHWAY 169 299	SSE 1/4 - 1/2 (0.312 mi.)	1	7

SLIC: SLIC Region comes from the California Regional Water Quality Control Board.

A review of the SLIC list, as provided by EDR, and dated 12/21/2009 has revealed that there is 1 SLIC site within approximately 0.5 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
SIMPSON TIMBER COMPANY Facility Status: Open - Inactive		NNW 1/4 - 1/2 (0.391 mi.)	2	7

ADDITIONAL ENVIRONMENTAL RECORDS

Other Ascertainable Records

INDIAN RESERV: This map layer portrays Indian administered lands of the United States that have any area equal to or greater than 640 acres.

A review of the INDIAN RESERV list, as provided by EDR, and dated 12/31/2005 has revealed that there is 1 INDIAN RESERV site within approximately 1 mile of the target property.

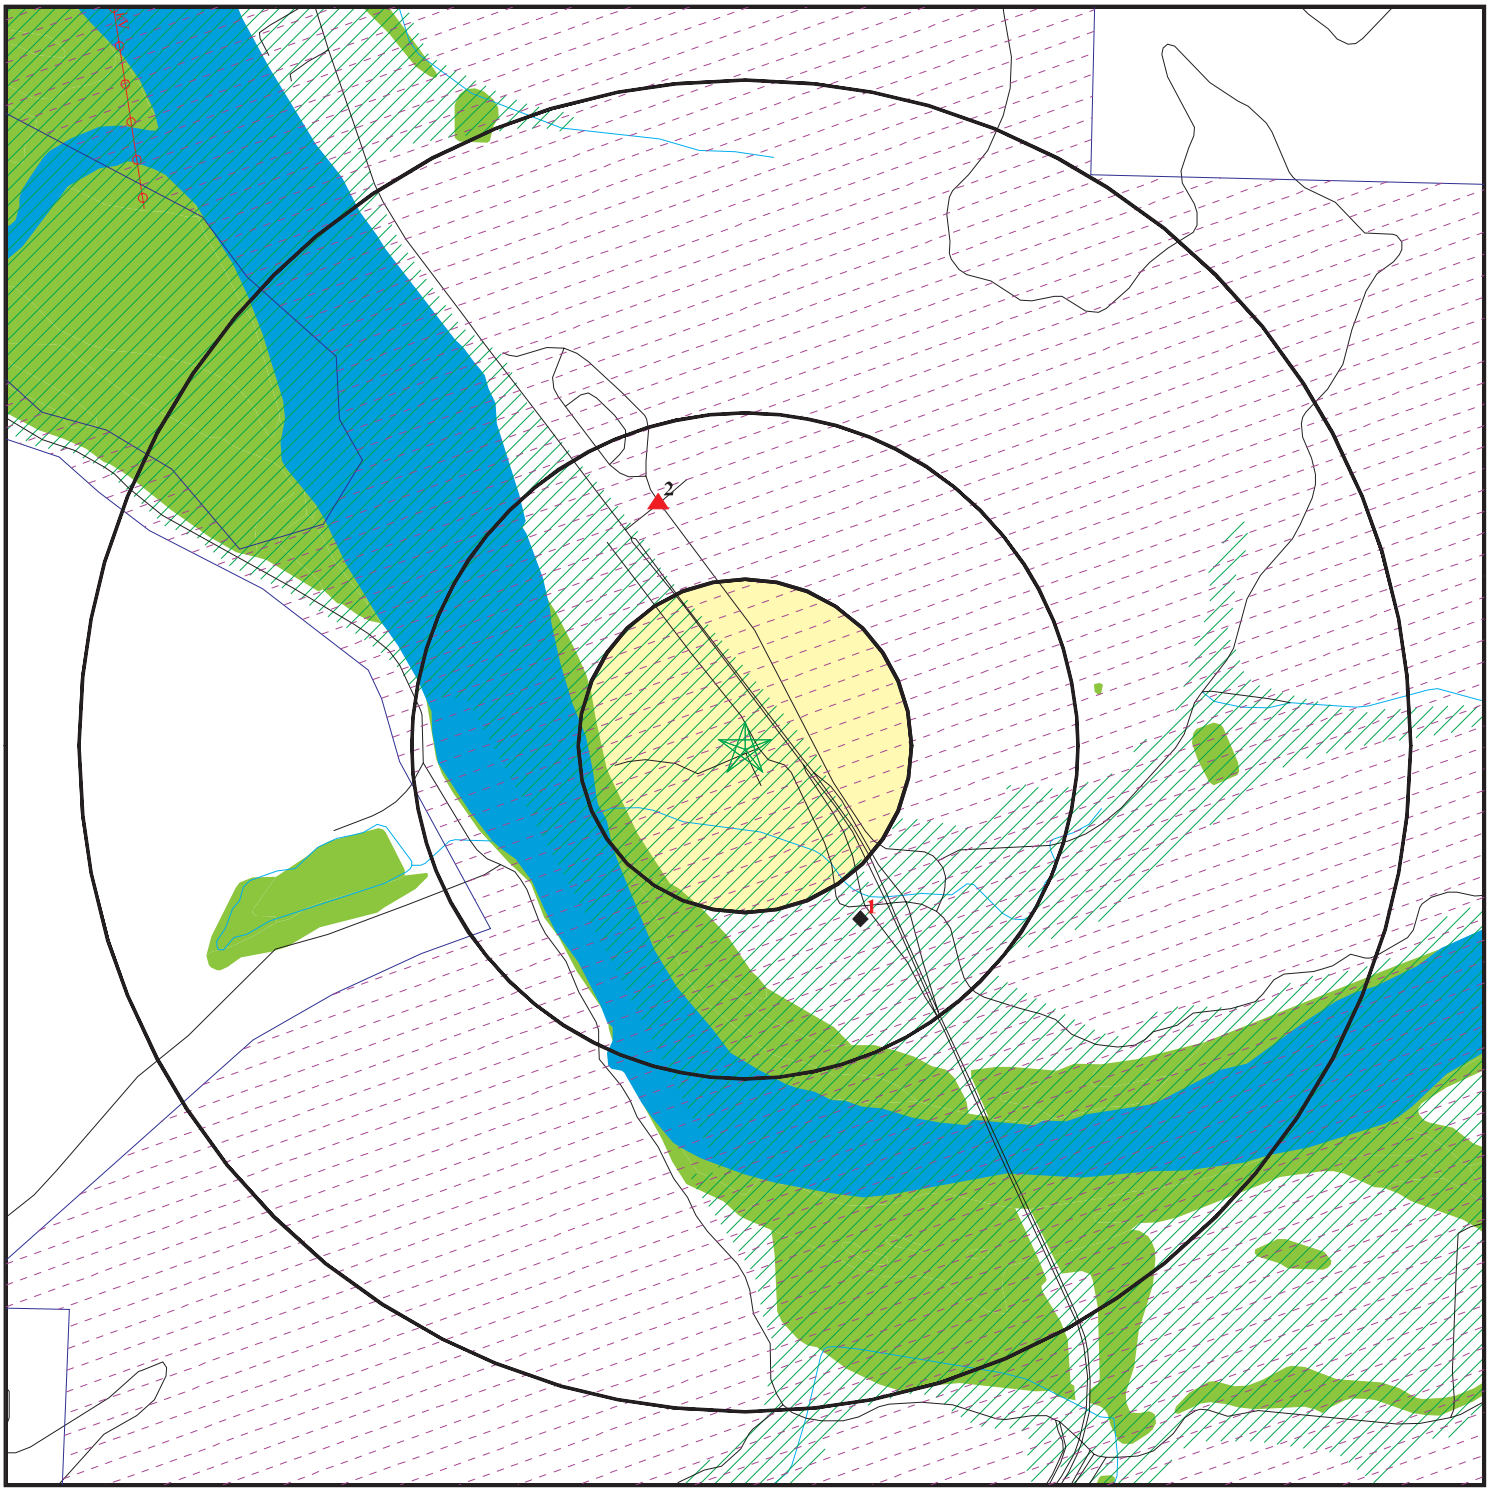

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
YUROK INDIAN RESERVATION		0 - 1/8 (0.000 mi.)	0	7

EXECUTIVE SUMMARY

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 11/01/2009
Date Data Arrived at EDR: 11/13/2009
Date Made Active in Reports: 01/11/2010
Number of Days to Update: 59

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 11/01/2009

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

Local Lists of Hazardous waste / Contaminated Sites

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 08/19/2009

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Other Ascertainable Records

RCRA-NonGen: RCRA - Non Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

Data Release Frequency: Quarterly

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

EDR PROPRIETARY RECORDS

EDR Proprietary Records

Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 12/31/2007
Date Data Arrived at EDR: 08/26/2009
Date Made Active in Reports: 09/11/2009

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data
Source: PennWell Corporation
Telephone: (800) 823-6277
This map includes information copyrighted by PennWell Corporation. This information is provided on a best effort basis and PennWell Corporation does not guarantee its accuracy nor warrant its fitness for any particular purpose. Such information has been reprinted with the permission of PennWell.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Licensed Facilities
Source: Department of Social Services
Telephone: 916-657-4041

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2009 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

GEOCHECK ®- PHYSICAL SETTING SOURCE ADDENDUM

TARGET PROPERTY ADDRESS

OLD TOWNSITE 1
101 ALDER CAMP ROAD
KLAMATH, CA 95548

TARGET PROPERTY COORDINATES

Latitude (North):	41.52660 - 41° 31' 35.8''
Longitude (West):	124.0383 - 124° 2' 17.9''
Universal Tranverse Mercator:	Zone 10
UTM X (Meters):	413373.1
UTM Y (Meters):	4597525.0
Elevation:	31 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	41124-E1 REQUA, CA
Most Recent Revision:	1966

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

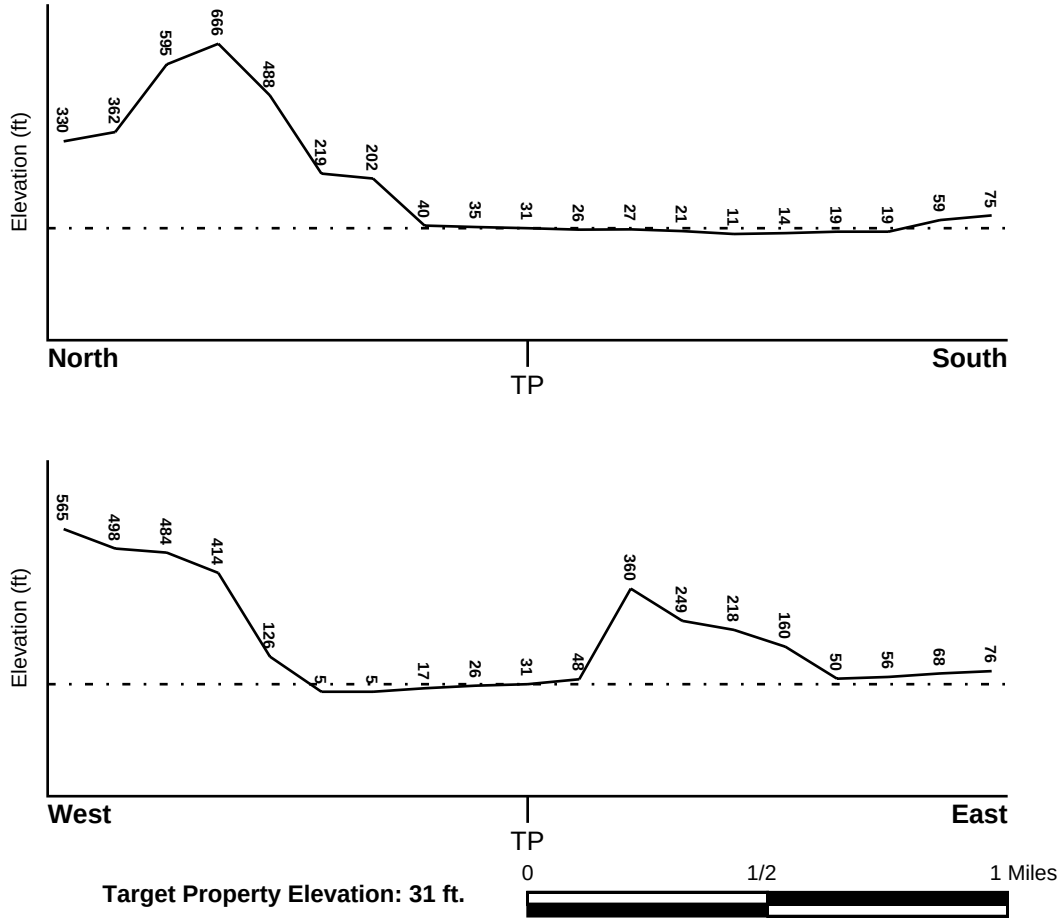

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General West

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Target Property Elevation: 31 ft.

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Target Property County	FEMA Flood Electronic Data
DEL NORTE, CA	YES - refer to the Overview Map and Detail Map

Flood Plain Panel at Target Property: 06015C - FEMA DFIRM Flood data

Additional Panels in search area: Not Reported

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
REQUA	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
Not Reported		

* ©1996 Site−specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Mesozoic
System:	Cretaceous
Series:	Upper Mesozoic
Code:	uMze*(decoded above as Era, System & Series)*

GEOLOGIC AGE IDENTIFICATION

Category: Eugeosynclinal Deposits

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name:	BIGRIVER
Soil Surface Texture:	sandy loam
Hydrologic Group:	Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.
Soil Drainage Class:	Well drained. Soils have intermediate water holding capacity. Depth to water table is more than 6 feet.

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel:	MODERATE
Depth to Bedrock Min:	> 60 inches
Depth to Bedrock Max:	> 60 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	6 inches	sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 6.00 Min: 2.00	Max: 6.50 Min: 5.60
2	6 inches	63 inches	stratified	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 6.00 Min: 2.00	Max: 6.50 Min: 5.60

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: silt loam
very gravelly - sand
loamy sand

Surficial Soil Types: silt loam
very gravelly - sand
loamy sand

Shallow Soil Types: No Other Soil Types

Deeper Soil Types: No Other Soil Types

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2009 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Services
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Health Services
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations
Source: Department of Conservation
Telephone: 916-323-1779
Oil and Gas well locations in the state.

RADON

State Database: CA Radon
Source: Department of Health Services
Telephone: 916-324-2208
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater
Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

EDR Aerial Photo Decade Package

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDRs professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

When delivered electronically by EDR, the aerial photo images included with this report are for ONE TIME USE ONLY. Further reproduction of these aerial photo images is prohibited without permission from EDR. For more information contact your EDR Account Executive.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

The Sanborn Library includes more than 1.2 million Sanborn fire insurance maps, which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ☑ Library of Congress
- ☑ University Publications of America
- ☑ EDR Private Collection

Limited Permission To Make Copies

Yurok Tribe (the client) is permitted to make up to THREE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

April 1996 to September 2001, Southern Nevada Water Authority, Boulder City, NV

- Water quality monitoring of various sources of drinking and waste waters.
- EPA Certified Method 1623 for the detection of *Giardia* and *Cryptosporidium* in drinking water. Used various detection methods including: IFA, PCR, Cell Culture, Immunomagnetic Separation and media based methods. Developed a dual flurochrome detection method for *Giardia* and *Cryptosporidium* detection.
- California and Nevada certified for the Detection of Bacterial Pathogens in Drinking Water.

Jr. Environmental Microbiologist.

September 1994 To March 1996, BioVir Laboratories Inc, Benicia, CA.

- Water quality monitoring of various sources of drinking and waste waters.
- Used various analytical methods to detect the presence of Bacteria, Viruses, Fungi, and Protozoa including: Media based, Cell Culture, Performance based methods, IFA and PCR.
- Cell Culture techniques for the production of Monoclonal Antibodies.

Analytical Pharmaceutical Chemist.

September 1993 to August 1994, ALZA Corporation, Vacaville, CA.

- Pharmaceutical Drug Production Quality Assurance testing.
- Used various instrumentation including: HPLC, Spectrometry, Gas Chromatograph.

Education:

September 1988 to May 1993, Humboldt State University, Arcata, CA.

- Bachelor of Science (BS),
  Environmental Sciences with a Degree in Biology.

Other Experience:

- California-Nevada American Water Works Association (CAL-NEVA AWWA) Water Quality Analyst Grade 2 Certificate.
- State of California Department of Pesticide Regulations Pesticide Applicators License (QAC).
- OSHA 40-Hour Hazardous Waste Operations and Emergency Response training (HAZWOPER).
- American Red Cross Adult CPR training.

Kathleen M. Sloan, Ph.D.

PO Box 7244
Brookings, OR 97415
(541) 251-3159
Email: ksloan@yuroktribe.nsn.us (work)

Qualifications & Experience:

- Director, Yurok Tribe Environmental Program
- Program administration and management for EPA funded programs
- Secretary of Interior Standards qualified Archeologist
- NEPA and CEQA review & compliance
- NHPA Determinations of Eligibility and National Register nominations

Education:

Ph.D. 2007 Oregon State University
Major: Environmental Sciences
Minors: Cultural Resources Management and Native American Studies

M.A.I.S. 2003 Oregon State University
Major: Anthropology (Cultural Resources Management/Archeology)
Minors: Native American Studies and Native American Art History

B.A. 1990 University of Notre Dame
Major: Design and Visual Arts
Minor: Art History

Graduate Coursework Completed:

Environmental Sciences:

Environmental Methods, Environmental Analysis, Natural Resources and Community Values, Cultural Ecology, Landscape Ecology, Geographic Information Systems (GIS), Geoarcheology, Applied Geomorphology, Ice Age Environments, Survey of Paleo-ecology, GK-12 Science Education Theory, GK-12 Science Education Methods, GK-12 Science Education Practicum. Seminar and dissertation credits.

Anthropology:

Theory of Culture, Archeological Theory, Anthropological Research Design, Cultural Resource Law, Cultures of North America, Northwest Prehistory, North America After the Ice Age, Settlement Pattern Studies, Lithic Analysis, Faunal Analysis, Primate and Human Evolution, Human Osteology. Project credits (NAGPRA), lab credits (curation and analysis of pre-historic and historic archeological materials), Archeological Field School and CRM internship. Thesis and research credits.

Native American Studies:

Pacific Northwest Coast Art, Plains Indian Art, Contemporary Native American Art, Theories of Race and Ethnicity, Native American Tribes and Treaties & Federal Indian Law, Ethno-Historic Methods, Contemporary Native Issues, Native American Philosophies, Exhibition Design. Thesis and research credits in Ethnic Studies and Art History.

Professional Experience:

July 2008 – Present. Director. Yurok Tribe Environmental Program. Responsible for implementing EPA funded tribal programs on the Yurok Indian Reservation. Management and oversight of 3 divisions: Cultural Resources, Water Resources & Cross Media.

June 2003 – July 2008. Supervisory Archeologist/Assistant Director, Cultural Resources Division, Yurok Tribe Environmental Program. PI for cultural resources projects including: Field surveys and investigations, Section 106/NHPA/NEPA/CEQA reviews, contract CRM, and ethnographic studies for the Yurok Tribe.

May - June 2003. Field Archeologist GS-9, USDA Forest Service , Crescent Ranger District, Deschutes National Forest, Oregon. Field archeologist. Supervised and completed cultural resource inventory surveys, sub-surface testing, mapping of cultural sites, soil analysis and profiles, site documentation and recording.

June - October 2002. Field Archeologist GS-9, USDA Forest Service , Crescent Ranger District, Deschutes National Forest, Oregon.

June - October 2001. Field Archeologist GS-9, USDA Forest Service , Crescent Ranger District, Deschutes National Forest, Oregon. Seasonal archeological field crew leader.

May - September 2000. Cultural Resource Intern, Confederated Tribes of the Umatilla Indian Reservation, Cultural Resource Protection Program.

June - November 1998. Archeologist. Co-PI and field crew leader for an NHPA historic properties study of WWII era military training camp.

September 1997 - June 1999. Field Technician. OSU Center for the Study of the First Americans. Research assistant and field crew member on a variety of archeological field projects.

June - August 1997. Archeological Field School with OSU Department of Anthropology. 8 week training in archeological field methods, survey, excavation, mapping, lab analysis and curation of diagnostic artifacts.

Professional Teaching Experience:

Fall 2006, Spring 2007, Fall 2007, Spring 2008, Fall 2008, Spring 2009. Associate Faculty. College of the Redwoods, Del Norte Campus. Introduction to Native American Studies, Native American History.

Fall 2007, Spring 2008. Associate Faculty. Klamath River Early College of the Redwoods, Klamath, CA. Introduction to Native American Studies, Environmental Sciences 10.

July 2002 - June 2003. Science Fellow/Teacher. National Science Foundation Fellowship GK-12 Science Education Program, Oregon State University: Siletz Elementary School.

Fall 1999, Fall 2000, Fall 2001. Graduate Teaching Assistant. Oregon State University, Department of Art. Dr. Barbara Loeb: Indigenous Art of the Americas.

Winter 1998, Spring 1998, Fall 1998 Graduate Teaching Assistant. Oregon State University, Department of Anthropology, Dr. MacMurray: Cultures in Conflict, Comparative Cultures, Family, Gender and Generation.

Specialized Professional Trainings:

July 2008 ARC GIS 9.2 and Environmental Applications
Northwest Environmental Training Center
3- day training. Oakland, CA.

Nov. 2007 ARPA Investigations and Law Enforcement
3-day training, Archeological Resource Investigations, Crescent City, CA.

Aug. 2007 Aquatic Toxicology
Northwest Environmental Training Center
3-day training. Portland, OR.

Aug. 2006 National Association of Tribal Historic Preservation Officers
1-week conference on NEPA and NHPA.

April 2005 ARPA Investigations and Archeological Damage Assessments
1-week training, Archeological Resource Investigations, Bend, OR.

May 2004 Non-Invasive Archeological Site Stabilization Workshop
1-week workshop, National Park Service, Point Reyes National Seashore, CA.

Employment History:

7/2008- Present	Yurok Tribe, Klamath, CA (Environmental Program Director)
8/2007 - Present	Klamath River Early College of the Redwoods, Klamath, CA (Associate Faculty)
8/2006 - Present	College of the Redwoods, Del Norte Campus, CA (Associate Faculty)
6/2003 – 7/2008	Yurok Tribe, Klamath, CA (Assistant Director, Contract Archeologist)
7/2002 - 6/2003	National Science Foundation Fellowship OSU (G K-12 Science Teacher)
5/2003 - 6/2003	Deschutes National Forest, Crescent Ranger District, OR (Field Archeologist)
6/2002 - 10/2002	Deschutes National Forest, Crescent Ranger District, OR (Field Archeologist)
6/2001 - 11/2001	Deschutes National Forest, Crescent Ranger District, OR (Field Archeologist)
5/2000 - 9/2000	Confederated Tribes of Umatilla, OR (Cultural Resources Intern)
9/1997 - 6/2003	Oregon State University. (Graduate Teaching and Research Assistant)
1/1996 - 1/1997	North American Mortgage Co. Lebanon, OR (Mortgage Loan Processor)
9/1991 - 4/1993	Madison Oyster Bar. South Bend, IN. (Supervisor/Customer Service/Dining)
1/1991 - 8/1991	Citizen's Action Coalition. South Bend, IN. (Canvasser/Fundraiser)
4/1989 - 1/1991	Center Street Café. Mishawaka, IN. (Customer Service/Dining)
9/1982 - 4/1989	Standard Federal Savings Bank. South Bend, IN. (Supervisor/Banker)
