NORTH DISTRICT CANDIDATES

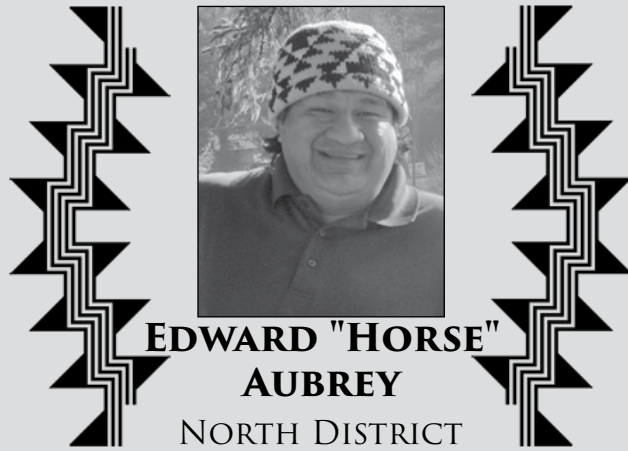

JACK MATTZ
NORTH DISTRICT

Aiy-yu-kwee':

My name is Jack Mattz; my grandmother was Geneva Mattz (Brooks) from the village of Rek-woi and my grandfather was Emery Mattz. I reside in Crescent City, California with my wife Sandy, of 34 years and our three children. I also am the proud grandpa to seven wonderful grandchildren. I am seeking to be re-elected to Yurok Tribal Council as North District representative and I would appreciate your vote so I can continue to work for you-the people. We all know that jobs-real jobs that can provide for a family-are hard to come by and harder to keep in this economy. I am also a supporter of the Tribe's newest economic endeavor, Pek-Tah Fuel Mart on the Reservation (Weitchpec). As your North District representative, I have ensured that job creation is front and center of the Tribal Council's and Tribal government's agenda. As a Board Member to Yurok Economic Development I have been a part of new growth of businesses currently Pem Mey Fuel Mart has 17 employees, 15 of them are Tribal Members, 4 out of 5 Jet Boat Tours' employees are Tribal Members, as well as the campgrounds, the YEDC management office, and our landscaping business all employ a majority of Tribal Members. Yurok Economic Development has a total of 31 employees with 85-90% are Yurok Tribal Members. In the past three years YEDC has acquired Pek-Tah Fuel Mart formally Pearson's Grocery, the Stores Bates Building, Jet Boat Tours, Village Trailer Park, Cats RV Park, Bluff Creek Resort and we also provide management of the Yurok Visitor Center and Culture Knowledge Park. Also, Redwood Hotel Casino, which is full almost every night and it is providing much needed employment

to our membership. We need more opportunities for tribal members-on and off the reservation-that provide decent wages that you can raise a family on and that provide experience and opportunities to grow careers not just jobs. I will continue to work with you to explore your ideas for business creation and will work to help any tribal member have access to the resources and opportunities they need to start and grow their own business. As your representative I have pushed for a ten year economic and job creation plan that details how we will create a more prosperous future for tribal members and against which we can hold the Council and government accountable. I also continue to believe that the new jobs and opportunities in the 21st century require a higher education-AND constant learning and improving even as adults. I will continue to demand better outcomes from our vocational education programs and work to ensure that all tribal members – regardless of income or location – receive superior education support – whether tutoring, college mentoring or access to resources for themselves and their families. As your representative you, the people, have voted to place me in Council as your representative, it has been an honor, I look forward to serving you in this next term as well. I have an open door policy where many of you have visited with me, hashed out your concerns and, more importantly, worked with me to develop your plans for me to take to Council. I ask that we continue this open dialogue and stay committed to helping our families and Tribal government flourish. It's far more powerful for our whole district and that your ideas have dignity and a place to be heard. With me as your representative I can guarantee that I will focus on job creation and economic opportunities; on better access to higher education, improvement for all tribal members and to make sure we have a functioning elders program; and an open door policy where I will directly and honestly with you to make sure your ideas and solution have a voice at Council. More importantly, I can guarantee that I will run as your representative and that major decisions that affect all of us will be put before you so that we can discuss the issues and give me clear directions about how I vote. I hope that you will consider me, Jack Mattz, to once again be your representative for North District.

Jack Mattz ✨

Ay-Ye-Kwee, My name is Edward "Horse" Aubrey. I am running for the North District Tribal Council Seat- My initial priorities are Education, Housing and Economic Development.

I feel my success in business as a Roofing Contractor, and my willingness to work at the council level will assist in decisive decision making, while helping individual Tribal members in attaining life goals.

My lovely Tolowa wife and I have 6 children, with 2 still living at home. We live in Smith River. My family is from Pekwan and Notchko. Growing up I was taught how to dance in

Brush Dance, play sticks and fish the family fishing hole.

Early on as an apprenticed roofer I became reliable, then I became more efficient which lead to increased job responsibilities. I began training new roofers and supervising work crew, lastly became a job estimator developing roofing bid packages.

This progression occurred because I am trust worthy, honest, fair, open, and responsive to my employees, fellow workers, clients and others. My intention is to listen to the needs and concerns of my community and bring it to the table.

Recently I've worked as a maintenance worker for Yurok Housing and Smith River Rancheria. I assisted in the development and construction of XUS Ziplines. In addition, I build custom Native American caskets.

The experience I developed in both my work history and business is easily transferrable to becoming a solid Yurok Tribal Council Member. Thank You for your vote in the upcoming election.

Edward Aubrey

REQUA DISTRICT CANDIDATES

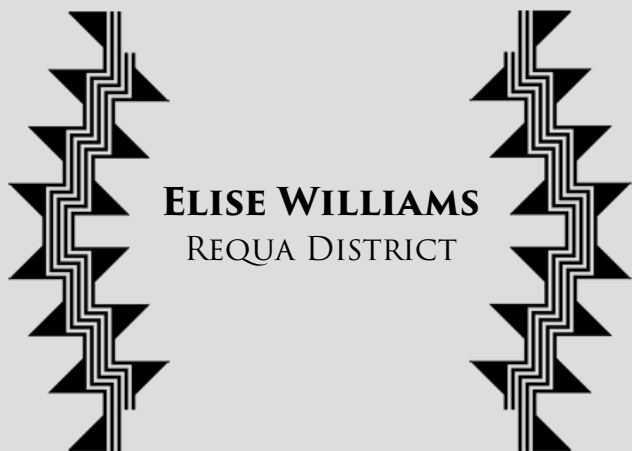

My name is Ryan Ray Sr. Great grandson of Awok Ada Charles from the village of Waukell. I am 36 years old, father of 5 children, and lived in Klamath my whole life. It's been an honor serving as the REqua District Representative for the past 3

years. I will NEVER forget how I got here or the reason I ran in the first place. Growing up here I watched council members come and go with very little being done for the community. It has been and will continue to be my priority to listen to tribal members and do my best to improve our community.

Some of the community accomplishments in the past 3 years consist of Youth basketball-with over 70 youth participants; Yurok Youth Center; Boys & Girls Club; playground by YEDC building, Christmas Party, 7.55 Acres transferred from the county to the tribe (baseball field); batting cages, and much more. I DO and ALWAYS will put tribal interests before tourism. VOTE RYAN RAY FOR REQUA DISTRICT COUNCIL MEMBER. Because together we are making a difference. THANK YOU FOR YOUR SUPPORT!!

Ryan Ray ✨

Aiy-u-kwee, my name is Elise Williams, It would be my honor and privilege to represent the people of the Requa District as Tribal Council Representative. I am the grand-daughter of Awaas Carrie Brooks Hodge of Requa and Andrew Hodge of Shreygon. My mother, Carol Williams, is the only remaining sibling of ten. I am married with two children, five grand-children and one great-grandson.

I attended Shasta College and HSU taking business and pre-med courses. I graduated U.C. Davis School of Medicine Physician Assistant Program in 1997, working my early career at U.I.H.S. Potowat, Klamath and Smith River Clinics. My education and work experience includes office management and financial management; including bookkeeping and financial reporting. I am able to read and understand finance reports and actually enjoy this area of business management. Prior to my career as a Physician Assistant, I worked with N.I.C.E.; Tri-County Indian Development Council; Johnson O'Malley Program, Peters & Associates and office management of a small rural clinic with emergency work on the local ambulance services. I was involved in the development of the not for profit ambulance business in Weaverville, responsible for the financial budget development, bookkeeping and monthly presentations to the Trinity County Board of Supervisors.

As Requa Representative, I will work for the tribal membership as a whole. I believe that all members' best interest be addressed and services are provided to ALL eligible interested members. I hope to foster an open and transparent working relationship with all members, the council and staff. I am interested in accountability to the membership regarding all aspects of tribal affairs. I will listen and address the concerns and thoughts of Requa District members to the best of my ability.

I recognize that over-seeing and supervising the management

of our great tribe involves attention, study and critical thinking to formulate positive decisions involving the many important and pressing issues facing the tribal membership. I believe I have the education and background training to provide the necessary professionalism when working with the membership, staff and council on the many areas including but not limited to the following:

-Tribal ELDERS overall health and well-being, including oversight of the implementation of the new funding recently received by the tribe on behalf of our elder members.

-Our Klamath River's health and wellbeing and its vital resources, with emphasis on the survival of our fish and appropriate dissemination of the resources obtained from the river.

-Tribal youth education from pre-school through higher education and vocational training. Continue support, implementation and expansion of youth activities on the reservation.

-Address and/or work to improve the health care delivery system for tribal members, especially the young and elderly.

-Monitor and follow any existing programs' progress and activities with emphasis that ALL eligible interested members are informed and included and have access to any program offered to the tribal membership.

-Work on development of possible programs to address the many domestic issues (domestic violence, alcoholism, suicide, etc.) facing the membership.

-Tribal blood quantum vs. lineage.

I consider work on the Tribal Council an honor and pledge to work to the best of my ability in the best interest of the tribe as a whole. I respectfully request your vote for Requa District Representative to the Yurok Tribal Council.

Elise Williams ✨

WEITCHPEC DISTRICT CANDIDATES

**THOMAS
WILLSON SR.**
WEITCHPEC DISTRICT

During my term, I have worked on the Cultural Fire Management, the Prairie Restoration, the acquisition of Bluff Creek Resort, and the Pec Tah Store in Weitchpec.

It is my passion to see our Community continue to grow in economic development and the restoration of our land and rivers. As your Councilman, I will continue to advocate for the removal of the Dam and promote those services that ensure health and well being to our people, our resources, and our future generations.

I ask for your vote in re-electing me as your Councilman for the Weitchpec District.

Wokhlew

Thomas E. Willson Sr. ✨

Aiy-Yu-Kwee

Nec Naw Tom Willson from Weitchpec.

It has been my honor to serve the Weitchpec District as your Councilman.

**TOBY
VANLANDINGHAM**
WEITCHPEC DISTRICT

in April 2012 using the PICO model). During my time on the KLOC I witnessed first hand the power of our people, and how a well informed group of people can make solid decisions that benefit not only Yurok, but those living in our community as well. I am a firm believer in the power of the people, and firmly believe that I can bridge the gap that has formed between members of council and the people. As a tribe, our greatest resource is our people, and I feel it is time that our voices are represented in every decision made that impacts our district. It was a tough decision to run, I would not have done this without the support of my friends, family and love of my life Maria Robbins. They have complete faith in me and I hope this October you too will have that same faith in me as you cast your vote! Representation Matters! ✨

Aiy ye kwee' Neekeechyue! I think most of you know me, for those that don't know me yet, I'm excited to meet you! I've been working for the YTTS as the Weitchpec/Wautec driver for the last 2 years, before that I was the upriver tribal security guard. I've had hands-on training in the PICO national network community organizing model. In 2012-2013 I worked closely with Skip Lowry, Bertha Peters, Sunny Cosce and many others in our community to establish the Cultural burn program through the KLOC (formed

Tribe concerned about salmon listing

Results of new DNA research come as no surprise

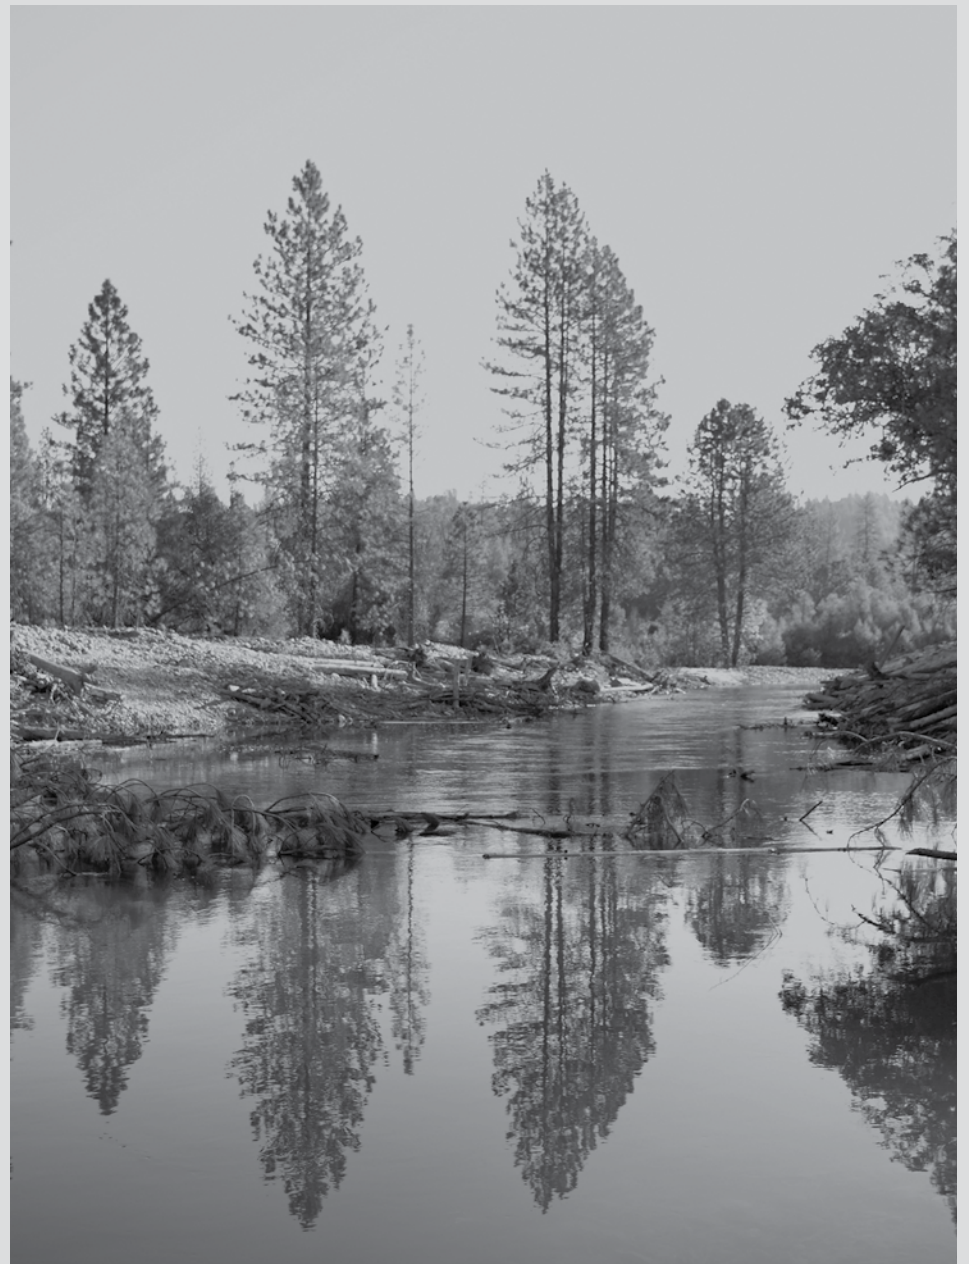

On August 16, 2017, University of California Davis researchers published in the scientific journal, *Science Advances*, an article featuring recent research that indicates Klamath River spring Chinook salmon are genetically distinct from fall-run Chinook salmon. This distinction will likely lead to the petitioning of the spring run Chinook salmon to be listed under the federal Endangered Species Act.

The Yurok Tribe has always supported the appropriate conservation of fisheries resources, including spring-run Chinook salmon. For example, the Tribe has substantially, and voluntarily, limited the spring Chinook fishery for decades due to concerns over the status of stocks in the South Fork Trinity and Salmon Rivers. Additionally, the Tribe is actively involved in large-scale habitat restoration efforts in the South Fork Trinity River in an attempt to address the habitat degradation that has resulted in the decline of this stock. “We’re not going to stand idly to the side as South Fork spring Chinook salmon continue to decline, we’re doing something about it, now.” said Chairman Thomas O’Rourke of the Yurok Tribe.

The single most effective restoration action that can be taken to restore spring Chinook is the removal of the four hydroelectric dams on the Klamath River. The Yurok Tribe has been a leader in this effort for many years and sees this action as critical to ensure the security of spring run and fall-run Chinook salmon in the Klamath River. Reintroduction of spring salmon to their former range will improve the genetic and geographic diversity of spring run Chinook salmon, as well as result in significant improvements to water quality, disease issues, and access to critical habitats.

The fact that scientists have found the gene that gives rise to the early run timing of spring Chinook comes as no surprise to the Yurok Tribe. In 1999, the Tribe stated in comments to the National Marine Fisheries Service regarding a previous petition to list spring Chinook, that there was more than likely a genetic link to this characteristic. “Tribal members have always known the difference between fall and spring run fish, and we’ve always treated them differently,” said Chairman Thomas P. O’Rourke.

While the Tribe supports the conservation of fish stocks throughout the Klamath Basin, the Yurok Tribe is concerned about the impact an ESA listing could have upon its federally recognized

The Yurok Tribe constructed this new fish habitat on the Trinity River in 2016.

fishing right. Chairman O’Rourke said, “The fish, the fishing, and the river are intertwined with the Yurok way of life, and a part of who we are as a people. Our concern is that ESA listings have often led to immediate restrictions to fisheries, while not addressing the true factors that led to the decline. The Yurok Tribe will continue to responsibly manage our fishery and restore spring Chinook habitat, regardless of the outcome of a potential listing.” ✧

Tribal Council gives Congressman award

The Yurok Tribal Council honored US Representative Jared Huffman (D-San Rafael) with the first-ever Excellence in Partnership Award.

“Congressman Huffman has a proven track record of being a powerful advocate for the Yurok people,” said David Gensaw Sr., the Yurok Tribe’s Vice Chairperson. “We selected the congressman to be the first recipient of this award, because of his enduring commitment to restoring the Klamath River, increasing our land base and protecting our natural resources.”

The Yurok Tribal Council's Excellence in Partnership Award honors non-Tribal leaders who have, through their collaboration with the Tribe, worked toward the betterment of the Yurok populace. The Yurok Tribal Council is charged with serving the Yurok tribal membership and managing a wide-range of natural resources. These complicated tasks necessitate the development of strong relationships with partners that share our ideals.

Huffman, the 2nd District Representative, is a longtime supporter of the Tribe’s effort to remove the lower four Klamath River dams, an action that will open up hundreds of miles of historic, salmon spawning habitat and drastically aid in the recovery of struggling fish stocks.

Congressman Huffman recently introduced a package of two bills for the purpose of appropriating nearly \$140 million to assist commercial fishers, including Yurok Tribal fishers, impacted by the 2016 fisheries disaster. At the time, the 2016 salmon run was the lowest on record. The meager number of fish forced the Tribe to cancel the commercial fishery on the Klamath, which caused serious economic hardship for Tribal fishers and the businesses that support the annual fishery. The Tribal Council also canceled the 2017 commercial fishing season in response to this year’s Klamath River forecast. Even fewer fish than ever before are forecast to return to the Klamath later this summer.

As the sponsor of the Yurok Lands Act last year, Congressman Huffman introduced the pivotal piece of legislation to address land inequities within the Hoopa-Yurok Settlement Act and increase land management partnerships between the Tribe and the federal government. The bill, which will be reintroduced later this year, intends to take the Yurok Experimental Forest into trust for the Tribe and expand the reservation to include approximately 45,000 acres, located within the Tribe’s territory. It will also make the Tribe a joint lead agency for all major federal actions, pursuant to the National Environmental Policy Act, for certain areas and

Congressman Jared Huffman meets with the Yurok Tribal Council.

designate the Bald Hills Road, which runs from US Highway 101 to the Klamath River, as a Yurok Scenic Byway.

“The Yurok Tribe would like to sincerely thank Congressman Huffman for his tireless service on behalf of the Yurok people and the people of Northern California,” concluded Vice Chairperson Gensaw. ❖

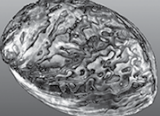

YUROK SOCIAL SERVICES' Culture & Wellness Group

Come participate in wellness & cultural educational activities in a 7 session program. The 7 C's of Resiliency curriculum will be taught each week followed by an enriching hour of cultural activity afterwards. (Cultural activities may include traditional doll dress making, loom beading, round beading, necklace making, etc.). In order to participate you must pre-register. Participation will be determined on a first come first serve basis to Yurok Tribal members and households. So call today if you would like to participate. Please contact Keishanne Whitworth at (707)445-2422 for further information or to pre-register for this activity.

Group activities will begin August 17th, from 5:30-8:00 p.m. at the Yurok Tribes' Worthington site.

SPONSORED BY THE YUROK TRIBE'S TANF PROGRAM AND THE YUROK TRIBE'S SAMSHA SYSTEM OF CARE PROGRAM.

communities.

PLEASE RSVP AT (707) 464-2919 EXT. 5721

Contribute to cannabis research on Yurok lands: Interview Participants Wanted!

Aiy ye kwee'! My name is Kaitlin Reed. I am a Yurok tribal member and a Ph.D. candidate in Native American Studies at the University of California, Davis. For my dissertation project, I am researching the social, political, and environmental impacts of marijuana cultivation on Yurok tribal lands. As California and other states legalize marijuana, it is important to understand the way marijuana impacts our community, our river, and our world. For this research to be useful for the community – and other tribal communities dealing with similar issues -- and accurately represent the impacts of marijuana, community participation is very important! Wok-hlew'!

Do you have an opinion, a story, or an experience regarding marijuana that you want to share? I am looking for people to interview for my dissertation project. Interviews take approximately 60 minutes and can be conducted in-person, on the phone, or through video chat. Please contact me at kpreed@ucdavis.edu.

Don't have time to be interviewed but still want to help? Your opinions are still important! Take a few moments and answer the following questions and email your responses to kpreed@ucdavis.edu.

1. Are you a Yurok tribal member?
2. Where do you reside or call home?
3. Do you support the Yurok Tribe's zero tolerance policy on marijuana? Why or why not?
4. Do you think marijuana is a problem for the Yurok Tribe? Why or why not?
5. What are your primary concerns regarding the illegal marijuana operations on Yurok tribal lands?
6. Do you have any lesser, but still important, concerns?
7. What questions do you have about marijuana cultivation on Yurok tribal lands? ❄️
