Signatures of Environmental Professionals

The following Environmental Professionals performed this Phase I ESA in conformance with ASTM Standard Practice E 1527-13 and AAI Standards. The following individual(s) meet the qualifications for individuals completing or overseeing all appropriate inquiries, and possess sufficient specific education, training, and experience necessary to exercise professional judgment to develop opinions and conclusions regarding the existence of environmental conditions on the property. Any work completed on this ESA by an individual who is not considered an environmental professional was completed under the supervision or responsible charge of the environmental professional.

EXECUTIVE SUMMARY

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of AASTM E1527-13 at the Subject Property, APN 533-062-018, located on Camp Drive, near Weitchpec, California with a Post Office address of Hoopa, CA. This assessment has revealed the following conditions in connection with the Subject Property:

- Former use of the Subject Property as a timber mill site was principally for staging logs for loading onto trucks and transport to processing at lumber mills.
- Current use of the Subject Property as undeveloped rural property.
- Existing, de minimis remains of decades old illegal dumping, abandoned cars, and burned travel trailer do not rise to level of regulatory concern.

In our opinion, this assessment has not revealed any Recognized Environmental Conditions (RECs) or any Historical Recognized Environmental Conditions (HRECs) in connection with the property. The following report will outline the procedures used during this Site Assessment, the physical findings, the historical findings, and present uses of the property.
1.0 INTRODUCTION

The Yurok Tribe Environmental Program (YTEP) has prepared this Phase I Environmental Site Assessment (Phase I ESA) on the Camp Road Mill property, located on Camp Drive, an artery of US Highway 96, south of Pecwan Creek and north of Knulthkarm Creek, near Weitchpec, California (hereafter referred to as the Site, or Subject Property). The property is sited at Latitude (North): 41.3408 by Longitude (West): -123.84810. This Phase I ESA was prepared for the exclusive use of the Yurok Tribe located in Klamath, California and the United States Environmental Protection Agency (US EPA) Region 9 Brownfields Program.

This Phase I conforms to the principals of ASTM E 1527-13 “Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process” (ASTM, 2013).

This report is organized as recommended in ASTM E1527-13.

1.1 Purpose

The Purpose of this Phase I ESA is to identify Recognized Environmental Conditions (RECs) associated with the Subject Property. An REC is defined by ASTM as the presence or likely presence of any hazardous substance or petroleum products on a property under conditions that indicate an existing release or a material threat of release of any hazardous substances and petroleum products even under conditions in compliance with law.

This report will include listings of historic RECs if applicable. A historical REC is an environmental condition which, in the past would have been considered a REC, but which may or may not be considered a REC currently.

RECs do not include de minimis conditions that generally would not be subject to any enforcement action if brought to the attention of appropriate agency.

1.2 Detailed Scope of Work

This Phase I ESA conforms to the principals of work described in ASTM E1527-13.

1.3 Significant Assumptions

It is assumed that the groundwater flow direction on the vicinity of the Subject Property is toward the north, towards Pecwan Creek, based on sloping topography on the vicinity of the Subject Property.

1.4 Limitations and Exceptions

“No environmental site assessment can wholly eliminate uncertainty regarding the potential for the recognized environmental conditions in connection with a property. Performance of this practice is intended to reduce, but not eliminate, uncertainty regarding the potential for recognized environmental conditions in connection with the property” (ASTM, 2013). The information included in this report is based professional opinions from our field reconnaissance and visual observations of
the Subject Property and our review and interpretation of available historic information as described in this report.

1.5 Special Terms and Conditions

No special terms or conditions are related to this investigation.

1.6 User Reliance

This report was prepared for the sole and exclusive use of the Yurok Tribe located in Klamath, California and the USEPA Region 9 Brownfields Program. The scope of work performed in this investigation may not be appropriate to satisfy needs of others. Any use of this document and findings as at the sole risk of said user.
2.0 SITE DESCRIPTION

2.1 Location and Legal Description
The subject property, APN: 533-062-018, is located on Camp Road, an artery of US Highway 169, accessed between post mile 14.75 and 15, between the Tribal communities of Pecwan to the north and Sregon to the south, near Weitchpec, CA. According to the Humboldt County Assessor, the current owner of the subject property is the United States of America by the Bureau of Indian Affairs. It resides within the exterior boundaries of the Yurok Reservation.

Legal Description: All that certain piece or parcel of land being a portion of the North Half of the Southeast Quarter of Section 17, Township 11 North, Range 3 East, situate and lying in the County of Humboldt, State of California.

2.2 Site and Vicinity General Characteristics
The parcel is divided by natural topology with the site of an historic timber mill comprising the Subject Property for this ESA. The Subject Property is situated on the north-east quadrant of the parcel on a relatively flat bench of well drained, gravelly loam at 450 feet above sea level with a general southeast slope towards Pecwan Creek. Bedrock is between 20 and 40 inches below ground level. The northwest portion encompasses a promontory that is considered culturally significant “high country.” The southern half is undeveloped, rural land.

Knulthkarm Creek flows through the southern region of the Subject Property, approximately 565 meters from the old mill site. Pecwan Creek is closer to the mill site (approximately 140 meters), but lying in the adjacent property to the north.

2.3 Current Use of the Property
The Subject Property is currently undeveloped, rural property.

2.4 Description of Structures, Roads, Other Site Improvements
The Subject Property is currently has no structures or other site improvements other than being leveled in the vicinity of previous timber yard. There remains a network of the graded access roads that are currently covered in undisturbed moss and emergent shrubbery.

2.5 Current Use of Adjoining Properties
There are multiple adjoining properties that border the subject property. The property to the north is owned by Tribal Member Barbara McQuillen. It is currently rural, undeveloped land. There are two properties to the east; 534-091-018, Yurok fee land held as Yurok Forest Reserve and 534-091-009, owned by Tribal Member Lena Sylvia and zoned by Humboldt County for timber production. The Subject Property borders the Klamath River to the west. The larger of two properties to the south of the Subject Property is upslope of the river, 533-062-019 and is trust land of the Yurok Tribe, designated as Yurok Forest Reserve. A smaller property to the south lies adjacent to the
Klamath River and is trust land, predominantly used for rural residential development as Tribal Land Assignments. The properties beyond the contiguous boundaries are predominantly forest land.
3.0 USER PROVIDED INFORMATION

3.1 Title Records
There are no property transactions with the Yurok Tribe currently in process with the Subject Property. Therefore a title report has not been ordered.

3.2 Environmental Liens or Activity Use Limitations
There are no Environmental Liens or Activity and Use Limitations on file for the Subject Properties.

3.3 Specialized Knowledge
Micah Gibson as Interim Director of YTEP, user of this report, is not aware of any specialized knowledge regarding the Subject Property.

3.4 Commonly Known or Reasonably Ascertainable Information
Micah Gibson as Interim Director of YTEP, user of this report, is not aware of any Commonly Known or Reasonably Ascertainable Information regarding the Subject Property.

3.5 Valuation Reduction for Environmental issues
The intention of this document is to evaluate the potential impacts of REC’s on Tribal Lands within the Yurok Indian Reservation. Any reduction in value of the property is unknown and therefore not relevant to this report.

3.6 Owner, Property Manager and Occupant Information
The Subject Property is currently unoccupied and is owned by United States of America by the Bureau of Indian Affairs in Trust for the Yurok Tribe. As such the Yurok Council is acting as property manager. Yurok Council Member, Mindy Natt represents the District that the Subject Property resides in and provided responses to an environmental questionnaire concerning the subject property. The completed questionnaire is included in Appendix A.

In addition, to its role as owner, the Yurok Council manages the property through its staff. In this role, Emery Mattz, Environmental Specialist with YTEP’s Pollution Prevention Division was interviewed.

3.7 Reason for Performing Phase I ESA
Micah Gibson as Interim Director of YTEP, user of this report, indicated that the reason for performing a Phase 1 ESA is to ensure that contamination does not threaten public health and the environment during and after redevelopment of the Subject Property. The Yurok Tribe has selected this property to be evaluated under the US EPA Section 128(a) Tribal Response Program.
4.0 RECORDS REVIEW

4.1 Standard Environmental Record Sources
YTEP has contracted with Environmental Data Resources (EDR), a company that specializes in the acquisition and compilation of local, state, and federal environmental records, to acquire the required records. EDR searched the Subject Property and surrounding area for standard environmental records as required by ASTM E1527-13. A complete listing of the databases searched and the radius searched are included in the EDR Radius Map Report, provided in Appendix C.

The Subject Property is not listed on any available standard environmental records and databases reviewed by the EDR report. City directory data and Sanborn Fire insurance maps were not available with coverage for the Subject Property. Surrounding sites identified in the EDR report include the following:

- Yurok Indian Reservation do not have a listed address and are included in the “Indian Reservation” database indication the presence of Indian administered lands that have an area of greater than or equal to 640 acres.
- There is an open dump approximately ½ mile to north northeast of the subject property. It lies across Pecwan Creek. Any contaminants from the dump that may create a risk of environmental release would most probably be transported via creek water and not impact the subject property.

There are no other sites listed in the EDR Radius Map report likely to have a negative impact on the Subject Property.

4.2 Additional Environmental Record Sources
YTEP records were searched and the database and GIS maps of community identified environmental threats (ETAP) were referenced. Community members recorded (2010) concerns over illegal dumping and abandoned cars along the south boundary of the Subject Property.

4.3 Physical Setting Sources
The 1997 United States Geological Survey (USGS) 7.5 minute map titled Johnsons, California, which includes the Subject Property and surrounding areas, was reviewed and is included in Figure 3. The Subject Property has an elevation range from approximately 240 to 400 feet above mean sea level. It is predominantly steep forested lands. The nearest stream shown on the USGS topographic map is Pecwan Creek which flows adjacent to the northern boundary of the Subject Property.

4.4 Historical Use Information on the Property
Information in this section of the report is based on acquisition and review of various historical sources, including historic aerial photographs, historic topographic maps, and interviews with local officials. City directory data and Sanborn Fire insurance maps were not available with coverage for the Subject Property.
4.4.1 EDR Historic Aerial Photographs

- 1954, Pecwan Creek, multiple logging roads and clearings are seen in this photo. No dwellings or other structures are evident.
- 1976, the visible land in this photo has more mature tree coverage and less general land disturbance and clearings, Camp Road is clearly defined with access to clearings that may possibly represent mill yards to the north. Two to five structures are shown near the river on adjacent property to the subject property.
- 1983, no details of the Subject Property can be seen due to poor photograph resolution.
- 1988, resolution on this photograph is very poor and only general hill slopes are visible.
- 1998, resolution on this photograph is poor however, it can be seen that the clearings north of Camp Drive are becoming covered with vegetation.
- 2005, this photograph reveals little detail of the Subject Property due to vegetative cover. Multiple structures/dwellings can be seen along the north side of Pecwan Creek on adjacent property to the north.
- 2009, in this photograph a clearing with what appears to be a large dwelling and possibly two out-building structures on the property contiguous and west of the Subject Property can be clearing seen. Vegetation obscures the Subject property.
- 2010, the resolution in this photograph is poor but summer vegetation allows a clearing and turn-around to be seen north of Camp Drive. Increased number of structures is visible on adjacent properties to the north of Pecwan Creek as well as to the south along Myers Lane.
- 2012, no details are evident on the subject property as it remains covered with vegetation.

4.4.2 Historic Topographic Maps

- 1925, shows no development at the subject property; 2 structures lie to the north of Pecwan Creek on adjoining property.
- 1952, shows development at the mouth of Pecwan Creek including the “Pecwan Union School”; several structures may lie near or on the subject property’s northwest corner.
- 1978, no change from the 1952 were evident from this map.
- 1982, the structures and school at the mouth of Pecwan Creek are no longer evident; two structures remain on the adjoining property to the north of Pecwan Creek. An unpaved road going uphill on the north adjoining property is extended from the 1978 map.
- 1997, this map shows no structures on the subject property and the identical two structures marked on the adjoining properties as shown on 1925 map.
4.4.3 Historic City Directories
   Historic city directory data was not available with coverage for the Subject Property. Documentation is included in Appendix G.

4.4.4 Sanborn Fire Insurance Maps
   Historic Sanborn Fire Insurance Maps were not available with coverage for the Subject Property. Documentation is included in Appendix F.

4.5 Historical Use Information on Adjoining Properties
   No historical use information on the adjoining properties was available that indicates any significant impacts that might contribute to recognized environmental conditions in connection with the property.
5.0 SITE RECONNAISSANCE

5.1 Methodology and Limiting Conditions
The Subject Property was inspected by Suzanne Fluharty, Emory Mattz, and Chaygee Sylvia of the Yurok Tribe Environmental Program on August 7, 2014. Photographs from the Site inspection and a Completed Field Inspection Check List are included in this report’s Section 12 Figures.

Limiting Conditions
There were no limitations imposed by physical obstructions such as adjacent buildings, bodies of water, asphalt, or other paved areas, and other physical constraints (for example, snow, rain).

The mill site was inspected by walking into the interior of the Subject property via an abandoned roadway. The Subject Property is currently vacant undeveloped land with primary access by secondary access road/ driveway off Camp Road. This road is east of the promontory and provides entry to the Subject Property, sloping northward toward Pecwan Creek. Approximately ¼ mile down this road the property becomes flat and lightly vegetated.

5.2 General Site Settings
Generally the mill site consists of undeveloped relatively flat land with vegetative growth throughout. The Property is divided by the developed gavel Camp Road with the primary mill location on the north east quadrant of the property. The northwest quadrant is vacant land that holds the culturally significant promontory. The southern half of the property is tribal property used for a combination of tribal activities and residential purposes.

5.3 Exterior Setting
No structures exist on the subject property. No visible staining on the ground was evident. The site is lightly overgrown with vegetation but lacks the usual impenetrable brush and blackberry shrubs of the general locale. Although there was no stressed vegetation observed the principal ground cover is a thick carpeting of moss and it appears that the soil compaction from the timber piles has kept larger and more rampant growth from occurring.

At the site of a depression between the property’s secondary access road and the adjoining property’s driveway is an area that upon visual inspection may qualify as a wetland due to the presence of multiple wetland plant species. At the time of field inspection, during the ‘dry season’, there was no evidence of water and the surface soils appear dry. It is the reported site of an historic mill pond associated with the mill site on the Subject Property.

5.4 Interior Observations
No structures exist on the subject property; no interior observations were made.
6.0 INTERVIEWS

6.1 Interviews with Owners
The Subject Property is currently owned by United States of America by the Bureau of Indian Affairs in Trust for the Yurok Tribe. As such the Yurok Council is acting as both owner and property manager. Yurok Council Member, Mindy Natt represents the District that the Subject Property resides in and provided responses to an environmental questionnaire concerning the subject property. The completed questionnaire is included in Appendix A.

September 11, 2014 Ms. Natt was interviewed and indicated that the property was unoccupied but that the western ‘mountain’ was cultural property and that there are traditional use rights associated with the area that made it important for the Tribe to keep the property access in repair and unblocked for public Tribal entry. These include ceremonial, harvesting, and use as a community garden on the south-west corner. She reported that she was aware that it was common knowledge that the mill pond used to have old cars abandoned in it. Although she knew of no specific contamination, she did express moderate concern because of the Subject Property’s cultural importance.

6.2 Interview with Site Manager
In addition, to its role as owner (as described in 6.1), the Yurok Council manages the property through its staff. In this role, Emery Mattz, Environmental Specialist with YTEP’s Pollution Prevention Division was interviewed June 9, 2014 and stated that he was unaware of any environmental issues with the property.

6.3 Interviews with Occupants
There are no residents or occupants on the Subject Property, therefore no interviews were conducted.

6.4 Interviews with Local Government Officials
Yurok Tribal Councilmember, Mindy Natt, representing the Pecwan District stated that she was unaware of any environmental issues with the property.
7.0 FINDINGS

The assessment has identified the following environmental findings:

- At the time of this writing, no RECs were discovered on the Subject Property.
- The Subject Property was used as a timber mill in the 1900s.
- There are several *de minimis* conditions such as rusted and burned debris and an abandoned vehicle present on the property but these do rise to regulatory concern.
8.0 OPINION

8.1 Recognized Environmental Concerns and Historic Recognized Environmental Concerns:

Based on information obtained from this investigation, it is my opinion that there is no evident environmental contamination and the potential for any impacts from petroleum compounds are slight or non-existent and would not likely require a level of regulatory enforcement. For this reason any of the documented conditions would not rise to the level of Recognized Environmental Concerns (RECs).

8.2 Opinion Regarding Additional Appropriate Investigation:

The absence or obvious non-presence or likely non-presence of contamination at the Subject Property, based on the REC’s and Historic Recs outlined in section 8.1, it is the opinion of this environmental professional that no addition appropriate investigations be conducted.

Qualifications of the environmental professionals that prepared this report are included in Appendix H.
9.0 CONCLUSIONS

We have performed a Phase 1 Environmental Site Assessment in conformance with the scope and limitations of ASTM E 1527-13 at the Subject Property, located on the Camp Road Mill Site (APN 533-062-018), near Weitchpec, California. Any exceptions to, or deletions from, this practice are described in Section 2 of this report. This assessment has not revealed any recognized environmental conditions in connection with the property.
10.0 DEVIATIONS

There were no significant deviations from ASTM E 1527-13.

Title: **Yurok Tribal Council Representative**
Organization: **YT**

Status:  
☐ Owner  ☐ Site manager  ☐ Occupant  ☐ Government Official
☐ Other: **explain**

What is the current use of the property? **Someone tried to move trailer**

Do you know the past use of this property?  
☐ Yes  ☐ No
If yes, describe:  

Are there any transactions planned or underway for this property? If yes, what type?  
☐ Yes  ☐ No  ☐ Unknown
☐ Sale  ☐ Purchase  ☐ Exchange
☐ Other: **explain** **right of way to keep road for tribal member**

Who is the site contact for the property?  

How can the site contact be reached?  

Who is the owner of the property?  

Who are the occupants of the property?  

want to be sure Camp Rd is public access to connect w/B.Creek Rd
Do you have any specialized knowledge or experience related to the property or nearby properties?

☐ Yes  ☐ No

If yes, describe:  gate was removed by Ex for Road Dept

Are you aware of any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry?

☐ Yes  ☐ No

If yes, describe:  No water access + traditional rights of McQueens along Kwesham Creek/mountains is cultural site

Do you know of specific chemicals that are present or once were present at the property?

☐ Yes  ☐ No

If yes, describe:  

Do you know of any spills or other chemical releases that have taken place at the property?

☐ Yes  ☐ No

If yes, describe:  

Do you know of any environmental clean ups that have taken place at the property?

☐ Yes  ☐ No

If yes, describe:  

Based on your knowledge and experience related to the property, are there any indicators that point to the likely presence of contamination at the property?

☐ Yes  ☐ No

If yes, describe:  old fuel + burned composite in mill pond
**YTEP COMMUNITY CONCERN QUESTIONNAIRE**

**WHO YOU ARE:** You are not required to give us your name, but it would enable us to follow up with you

Name: **MINDY MATT**

Telephone:

Address:

How long have you lived in the area? [ ] 30+ yrs [ ] Less than 30 yrs

☐ I am Yurok  ☐ I am not Yurok

**LOCATION:** (Please write property name)

☐ I know the location ☐ I know the vicinity

☐ I know where contamination IS (Please describe where):

No

**WHAT IMPACTS:** Please identify, if you can, the primary part of the environment effected by contaminants

[ ] Air  [ ] Land/soil  [ ] Animals we eat  [ ] Plants we use

[ ] Drinking Water  [ ] Surface Water/Creeks/River  [ ] Springs

Please describe:

**WHY OR HOW YOU KNOW:** What is the source of your information?

[ ] I heard about it  [ ] I saw it  [ ] I think it’s there  [ ] Other (describe below)

Additional information about how you know or who you learned the information from:

**IMPACT OF CONTAMINATION:** Have you made changes in your use of this property or the resources on or near it as a result of your concern?

[ ] Yes  [ ] No  How:

[ ]

**LEVEL OF CONCERN:** Please indicate your level of concern by placing an X on the line below:

Not Much  ☐ Moderate  ☐ A Lot

**WHAT IS NEXT DOOR:** Please describe use of neighboring properties:

Cultural

Residential

Garden area
**WHAT IS THERE:**

- **Homes**
  - a) If it has homes, when were the first houses built?
  - b) If it has trailers, when were they moved there?
  - c) Is there piped water?
  - d) Are there indoor toilets and septic system?
  - e) Do you any concerns about this use? What:

- **Mill Site**
  - a) What years do you think the mill was in operation?
  - b) Can you describe the location of the teepee burner?
  - c) Was any wood treatment performed at the mill?
  - d) Do you any concerns about this use? What: needs cleanup

- **Mining Site**
  - a) What years do you think the mine was in operation?
  - b) Can you describe the type of mining operation that was used?
  - c) Can you describe the location of the sluice box?
  - d) Do you any concerns about this use? What:

- **Gas Station**
  - a) What years do you think the gas station was in operation?
  - b) Were there any above ground gasoline storage tanks? Where?
  - c) Was any auto repair done there?
  - d) Do you any concerns about this use? What:

- **Drug production (please circle all that apply)**
  - Methamphetamines
  - Crack
  - Marijuana
  - Other
  - a) What years do you think the drugs were being produced?
  - b) Do you any concerns about this use? What:

- **Dumpsite (Please circle typical items that were dumped on the property)**
  - Batteries
  - Gas cans
  - Household garbage
  - Furniture
  - Chemicals
  - a) Describe other items: CARS, ABANDONED trailer, house
  - b) Do you any concerns about this use? What:

Please describe any other contaminants or concerns you have about this property:

APPENDIX B: EDR ENVIRONMENTAL LIEN SEARCH RESULTS
Camp Drive Old Mill Site
Camp Drive
Orleans, CA 95556

Inquiry Number: 3781494.27S
November 14, 2013

The EDR Environmental LienSearch™ Report
The EDR Environmental LienSearch Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders’ offices, registries of deeds, county clerks’ offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.

Please contact EDR at 1-800-352-0050 with any questions or comments.

SURROUNDING SITES: SEARCH RESULTS
Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in bold italics are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Lists of Landfill / Solid Waste Disposal Sites
INDIAN ODI: Location of open dumps on Indian land.

A review of the INDIAN ODI list, as provided by EDR, and dated 12/31/1998 has revealed that there is 1 INDIAN ODI site within approximately 0.5 miles of the target property.

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

### STANDARD ENVIRONMENTAL RECORDS

#### Federal NPL site list

**NPL:** National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA’s Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

#### Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

| Date of Government Version: 10/25/2013 | Source: EPA |
| Date Data Arrived at EDR: 11/11/2013 | Telephone: N/A |
| Date Made Active in Reports: 01/28/2014 | Last EDR Contact: 04/08/2014 |
| Number of Days to Update: 78 | Next Scheduled EDR Contact: 07/21/2014 |

#### NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

| Number of Days to Update: 56 | Next Scheduled EDR Contact: 11/28/2011 |

Data Release Frequency: No Update Planned
Federal Delisted NPL site list

DELISTED NPL: National Priority List Deletions
The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 10/25/2013  Source: EPA

Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System
CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 10/25/2013  Source: EPA
Date Data Arrived at EDR: 11/11/2013  Telephone: 703-412-9810

Number of Days to Update: 94  Next Scheduled EDR Contact: 06/09/2014
Data Release Frequency: Quarterly

FEDERAL FACILITY: Federal Facility Site Information listing
A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 05/31/2013  Source: Environmental Protection Agency
Date Data Arrived at EDR: 07/08/2013  Telephone: 703-603-8704
Date Made Active in Reports: 12/06/2013  Last EDR Contact: 04/11/2014
Number of Days to Update: 151  Next Scheduled EDR Contact: 07/21/2014
Data Release Frequency: Varies

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned
Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA’s knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Federal RCRA CORRACTS facilities list

CORRACTS: Corrective Action Report
CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.
Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSD: RCRA - Treatment, Storage and Disposal
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-SQG: RCRA - Small Quantity Generators
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.
Federal institutional controls / engineering controls registries

US ENG CONTROLS: Engineering Controls Sites List
A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 12/17/2013  Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/14/2014  Telephone: 703-603-0695
Date Made Active in Reports: 01/28/2014  Last EDR Contact: 03/10/2014
Number of Days to Update: 14  Next Scheduled EDR Contact: 06/23/2014
Data Release Frequency: Varies

US INST CONTROL: Sites with Institutional Controls
A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 12/17/2013  Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/14/2014  Telephone: 703-603-0695

Number of Days to Update: 14  Next Scheduled EDR Contact: 06/23/2014
Data Release Frequency: Varies

LUCIS: Land Use Control Information System
LUCIS contains records of land use control information pertaining to the former Navy Base Realignment and Closure properties.

Date of Government Version: 02/26/2014  Source: Department of the Navy
Date Data Arrived at EDR: 02/28/2014  Telephone: 843-820-7326
Date Made Active in Reports: 04/24/2014  Last EDR Contact: 02/14/2014
Number of Days to Update: 55  Next Scheduled EDR Contact: 06/02/2014
Data Release Frequency: Varies

Federal ERNS list

ERNS: Emergency Response Notification System
Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances.

Date of Government Version: 09/30/2013  Source: National Response Center, United States Coast Guard
Date Data Arrived at EDR: 10/01/2013  Telephone: 202-267-2180
Date Made Active in Reports: 12/06/2013  Last EDR Contact: 04/04/2014
Number of Days to Update: 66  Next Scheduled EDR Contact: 07/14/2014
Data Release Frequency: Annually

State- and tribal - equivalent NPL

RESPONSE: State Response Sites
Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

Date of Government Version: 03/12/2014  Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 03/13/2014  Telephone: 916-323-3400
Date Made Active in Reports: 04/10/2014  Last EDR Contact: 03/13/2014
Number of Days to Update: 28  Next Scheduled EDR Contact: 05/19/2014
Data Release Frequency: Quarterly

State- and tribal - equivalent CERCLIS
ENVIROSTOR: EnviroStor Database
The Department of Toxic Substances Control’s (DTSC’s) Site Mitigation and Brownfields Reuse Program’s (SMBRP’s) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

State and tribal landfill and/or solid waste disposal site lists
SWF/LF (SWIS): Solid Waste Information System
Active, Closed and Inactive Landfills. SWF/LF records typically contain an inventory of solid waste disposal facilities or landfills. These may be active or inactive facilities or open dumps that failed to meet RCRA Section 4004 criteria for solid waste landfills or disposal sites.

State and tribal leaking storage tank lists
LUST REG 4: Underground Storage Tank Leak List
Los Angeles, Ventura counties. For more current information, please refer to the State Water Resources Control Board’s LUST database.

LUST REG 5: Leaking Underground Storage Tank Database

LUST REG 6L: Leaking Underground Storage Tank Case Listing
For more current information, please refer to the State Water Resources Control Board’s LUST database.

FEMA UST: Underground Storage Tank Listing
A listing of all FEMA owned underground storage tanks.

Date of Government Version: 01/01/2010
Date Data Arrived at EDR: 02/16/2010
Date Made Active in Reports: 04/12/2010
Number of Days to Update: 55

State and tribal voluntary cleanup sites

INDIAN VCP R1: Voluntary Cleanup Priority Listing
A listing of voluntary cleanup priority sites located on Indian Land located in Region 1.

Date of Government Version: 09/17/2013
Date Data Arrived at EDR: 10/01/2013
Date Made Active in Reports: 12/06/2013
Number of Days to Update: 66

VCP: Voluntary Cleanup Program Properties
Contains low threat level properties with either confirmed or unconfirmed releases and the project proponents have request that DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC’s costs.

Date of Government Version: 03/12/2014
Date Data Arrived at EDR: 03/13/2014
Date Made Active in Reports: 04/10/2014
Number of Days to Update: 28

INDIAN VCP R7: Voluntary Cleanup Priority Listing
A listing of voluntary cleanup priority sites located on Indian Land located in Region 7.

Date of Government Version: 03/20/2008
Date Data Arrived at EDR: 04/22/2008
Date Made Active in Reports: 05/19/2008
Number of Days to Update: 27

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 03/20/2014

Local Lists of Hazardous waste / Contaminated Sites

US CDL: Clandestine Drug Labs
A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this
web site as a public service. It contains addresses of some locations where law enforcement agencies reported
they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites.
In most cases, the source of the entries is not the Department, and the Department has not verified the entry
and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example,
contacting local law enforcement and local health departments.

Date of Government Version: 12/04/2013
Date Data Arrived at EDR: 12/10/2013

Local Land Records

LIENS 2: CERCLA Lien Information
A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.
LIENS: Environmental Liens Listing
A listing of property locations with environmental liens for California where DTSC is a lien holder.

DEED: Deed Restriction Listing
Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program’s oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder’s office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Records of Emergency Release Reports
HMIRS: Hazardous Materials Information Reporting System
Hazardous Materials Incident Report System. HMIRS contains hazardous material spill incidents reported to DOT.

CHMIRS: California Hazardous Material Incident Report System
California Hazardous Material Incident Reporting System. CHMIRS contains information on reported hazardous material incidents (accidental releases or spills).

LDS: Land Disposal Sites Listing
The Land Disposal program regulates waste discharge to land for treatment, storage and disposal in waste management units.
MCS: Military Cleanup Sites Listing
The State Water Resources Control Board and nine Regional Water Quality Control Boards partner with the Department of Defense (DoD) through the Defense and State Memorandum of Agreement (DSMOA) to oversee the investigation and remediation of water quality issues at military facilities.

Date of Government Version: 03/17/2014  Source: State Water Resources Control Board
Date Data Arrived at EDR: 03/19/2014  Telephone: 866-480-1028

Data Release Frequency: No Update Planned

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators
RCRAInfo is EPA’s comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

UMTRA: Uranium Mill Tailings Sites
Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

TSCA: Toxic Substances Control Act
Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.
FTTS: FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)
FTTS tracks administrative cases and pesticide enforcement actions and compliance activities related to FIFRA, TSCA and EPCRA (Emergency Planning and Community Right-to-Know Act). To maintain currency, EDR contacts the Agency on a quarterly basis.

FTTS INSPI: FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)
A listing of FIFRA/TSCA Tracking System (FTTS) inspections and enforcements.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

HIST FTTS INSPI: FIFRA/TSCA Tracking System Inspection & Enforcement Case Listing
A complete inspection and enforcement case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

SSTS: Section 7 Tracking Systems
Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.
ICIS: Integrated Compliance Information System
The Integrated Compliance Information System (ICIS) supports the information needs of the national enforcement and compliance program as well as the unique needs of the National Pollutant Discharge Elimination System (NPDES) program.

FINDS: Facility Index System/Facility Registry System
Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).

RAATS: RCRA Administrative Action Tracking System
RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

RMP: Risk Management Plans
When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

HAZNET: Facility and Manifest Data
The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method.

EPA WATCH LIST: EPA WATCH LIST
EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.
WDS: Waste Discharge System  
Sites which have been issued waste discharge requirements.

PRP: Potentially Responsible Parties  
A listing of verified Potentially Responsible Parties.

LEAD SMELTER 2: Lead Smelter Sites  
A list of several hundred sites in the U.S. where secondary lead smelting was done from 1931 and 1964. These sites may pose a threat to public health through ingestion or inhalation of contaminated soil or dust.

LEAD SMELTER 1: Lead Smelter Sites  
A listing of former lead smelter site locations.

2020 COR ACTION: 2020 Corrective Action Program List  
The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

PROC: Certified Processors Database  
A listing of certified processors.
HWP: EnviroStor Permitted Facilities Listing
Detailed information on permitted hazardous waste facilities and corrective action ("cleanups") tracked in EnviroStor.

Date of Government Version: 02/24/2014

FEDLAND: Federal and Indian Lands
### US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

| Date of Government Version: 10/23/2013 | Source: EPA |
| Date Data Arrived at EDR: 11/06/2013 | Telephone: 202-564-5962 |

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800’s to 1950’s to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR US Hist Auto Stat: EDR Exclusive Historic Gas Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR’s review was limited to those categories of sources that might, in EDR’s opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR’s HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR US Hist Cleaners: EDR Exclusive Historic Dry Cleaners
EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR’s review was limited to those categories of sources that might, in EDR’s opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR’s HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a TSD facility.

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data
Source: Rextag Strategies Corp.
Telephone: (281) 769-2247
U.S. Electric Transmission and Power Plants Systems Digital GIS Data

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics’ primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on private school locations in the United States.
Daycare Centers: Licensed Facilities
Source: Department of Social Services
Telephone: 916-657-4041

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

Scanned Digital USGS 7.5' Topographic Map (DRG)
Source: United States Geologic Survey
A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

EDR’s GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.
GROUNDWATER FLOW DIRECTION INFORMATION
Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION
Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY
General Topographic Gradient: General NW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.
HYDROLOGIC INFORMATION
Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

HYDROGEOLOGIC INFORMATION
Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:
- Search Radius: 1.25 miles
- Status: Not found

AQUIFLOW®
Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID  LOCATION  GENERAL DIRECTION
Not Reported  FROM TP  GROUNDWATER FLOW

* ©1996 Site–specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.
GROUNDWATER FLOW VELOCITY INFORMATION
Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY
Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture’s (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: ATWELL
Soil Surface Texture: clay loam
Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.
Soil Drainage Class: Somewhat poorly. Soils commonly have a layer with low hydraulic conductivity, wet state high in profile, etc. Depth to water table is 1 to 3 feet.

Hydric Status: Soil does not meet the requirements for a hydric soil.
Corrosion Potential - Uncoated Steel: HIGH
Depth to Bedrock Min: > 60 inches
Depth to Bedrock Max: > 60 inches

### OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

**Soil Surface Textures:**
- very gravelly - loam
- gravelly - loam
- gravelly - clay loam
- unweathered bedrock
- very gravelly - sand

**Surficial Soil Types:**
- very gravelly - loam
- gravelly - loam
- gravelly - clay loam
- unweathered bedrock
- very gravelly - sand

**Shallow Soil Types:**
- very cobbly - clay loam

**Deeper Soil Types:**
- weathered bedrock
- unweathered bedrock
- very cobbly - loam
- stratified
LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5’ Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5’ Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5’ Topographic Map (DRG)
Source: United States Geologic Survey
A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW® Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Services
The U.S. Department of Agriculture’s (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.
LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS
PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS
Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

OTHER STATE DATABASE INFORMATION
California Oil and Gas Well Locations
Source: Department of Conservation

APPENDIX D: EDR AND OTHER HISTORICAL AERIAL PHOTOGRAPHS
EDR Aerial Photo Decade Package

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR’s professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

When delivered electronically by EDR, the aerial photo images included with this report are for ONE TIME USE ONLY. Further reproduction of these aerial photo images is prohibited without permission from EDR. For more information contact your EDR Account Executive.

Thank you for your business.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Yurok Tribe were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Site Name: Camp Drive Mill Site

City, State, Zip: Hoopa, CA 95546
Cross Street: NA
Project: Camp Drive Mill Phase I ESA
Certification # 4282-4467-B3F3

UNMAPPED PROPERTY
This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Limited Permission To Make Copies
Yurok Tribe (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.’s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR’s City Directory Report includes a search of available city directory data at 5 year intervals.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

APPENDIX H QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS
EDUCATION

• **Doctorate of Philosophy in Environmental Sciences** 2008
  Oregon State University, College of Science
  Majors: Applied Anthropology; Botany and Plant Pathology

• **Masters of Arts in Interdisciplinary Studies** 2003
  Oregon State University, Graduate College
  Majors: Applied Anthropology; Botany and Plant Pathology; Speech Communication

• **Bachelors of Arts, cum laude in Liberal Studies** 2000
  Oregon State University, Liberal Arts College
  Minor in Speech Communication

JOB RELATED TRAINING

• Incident Command System 100, 200, 300, 400, 700, 800 2014
  Federal Emergency Management Institute

• Natural Resource Damage Assessment 2014
  Northwest Environmental Training Center

  Northern California Safety Consortium

• Linking Nutrient Pollution & HABs: State of the Science & EPA Actions 2013
  U.S. EPA Watershed Academy

• Phase I & Phase II Environmental Site Assessments 2013
  ASTM International Technical & Professional Training

  Inter Tribal Council of Arizona, Inc and USEPA Region Nine

• ESRI ArcGIS Certified- 121 Training Hours 2010 - 2013

• Sexual Harassment/Supervisor Development I &II/Policies, Procedures, & Forms/
  Cultural diversity, Awareness & Sensitivity/
  Yurok Tribe Human Resource Trainings 2010 - 2011

• Wetland Permitting 2000
  Portland State University School of Extended Studies/ Continuing Ed.

• Issues Framing and Moderator Training Workshops August 1999
  Portland Community College and Oregon State University Extension Service

ORGANIZATIONS & COMMITTEES

• **National Tribal Toxics Council- US EPA Region 9 Representative**
  Advances toxics management policies and programs, consistent with the needs, interests, and unique legal
  status of American Indian Tribes, Alaska Natives, and Native Hawaiians

• **Regional Tribal Operations Committee Pesticide Workgroup- Member**
  Assists EPA in meeting trust responsibility, strengthening Tribal environmental and public health programs, and
  enhancing responsiveness by information exchange between Tribes and EPA

• **Watershed Stewards Project (WSP)- Advisory Board Member**
  Works to conserve, restore, and enhance anadromous watersheds for future generations by linking education
  with high quality scientific practices; CA Conservation Corps & AmeriCorps

• **Klamath Fish Health Assessment Team (KFHAT)- Fish Kill Response Team Member**
  Provides early warning and coordinated response to a non-hazardous materials fish kill event in the
  anadromous portion of the Klamath River basin.

• **Yurok Land Management GIS Workgroup -2010 Participant Member**
  Facilitates GIS capabilities within the Yurok Tribe, use of the comprehensive Yurok GISDatabase, and
  knowledge of the new and ever advancing Geospatial Technologies.
PROFESSIONAL EXPERIENCE

• **Environmental Specialist Yurok Tribe** 2009 - current
  *Co-Principal Investigator and Project Field manager of U.S. Environmental Protection Agency, National Center for Environmental Research Science to Achieve Results Grant # RD-83370801-0.
  *Oversees all aspects of collection, processing, and analysis of field samples up to transport to the appropriate laboratory in order to meet grant objectives.
  *Responsible for communication and coordination between Yurok Tribal council, research partners at Humbolt State University, California Tribal Epidemiology Center, California Department of Fish & Game, Fish and Wildlife Water Pollution Control Laboratory, staff, and the tribal community.
  *Assists with the environmental monitoring and research for resource management, population dynamics, pesticides, toxicology, and risk assessment.
  *Maintains and updates tribal GIS database on pesticide applications and monitoring within the Yurok Indian Reservation; preparing community notices and providing other educational materials as necessary.

• **Ethnobotanist Coquille Indian Tribe** 2002 - 2009
  *Completed botanical surveys and environmental inventories.
  *Formed management recommendations for maintenance, re-introduction, and restoration of important traditional plant species and habitats.
  *Mediated collaboration to achieve pragmatic goals incorporating both specific cultural and economic tribal needs within Bureau of Land Management mandates.
  *Participated in meetings across Tribal departments and with partnered federal agencies that included cultural, economic, and physical feasibilities for various forestry and natural resource plans.

• **Instructor**
  **Linn-Benton Community College**
  *Science and Technology Division 9/2007 - 6/2009
  *Lecture and laboratory for General Biology 101; emphasis on development of scientific theories of evolution and classification of life on Earth; morphological adaptation of structures and functionality.

  **Arts & Communication Division 9/2003 - 6/2004**
  *Public Speaking and Interpersonal Communication courses

  **Oregon State University**
  *Co-taught seminar course in Native American Estuarine Resources
  *Consulted with Confederated Tribes of Siletz to develop course materials and appropriate interpretation of historic material culture.

  **Anthropology Department /Extended Campus 9/2005 - 6/2006**
  *Designed and taught on-line course Natural Resources and Community Values; environmental communication and interactions were examined.
  *Case studies drawn from stakeholder/government agency use and management of public lands

  **Biology Department (GTA) 2004 - 2007**
  *Laboratory for Biology 200 series for science majors
  *Laboratory for Biology 100 series for non-majors; focus on evolutionary relationships.

  **Speech Department 2000 - 2002**
  *Instructed Public Speaking
  *Focus on intercultural competence, finding and keeping speakers’ ethnic voice while meeting academic and professional standards
PAPERS/ PRESENTATIONS

• Cumulative Assessments and Tribal Subsistence 2010
  Paper co-authored with Dr. Kathleen Sloan. Presented at National Tribal Science Forum.

• Practical Applications for Botanical Education in Native American Traditional Ecological Knowledge. 2008
  Paper presented.
  Society of Economic Botany 49th Annual Meeting. Duke University, Durham, NC.

• One Tribe and Its Environment: What can an investigation of culture add to resource planning? 2007
  Paper presented.
  Crossing Boundaries: The 9th Annual Environmental Joint Campus Conference. University of Oregon

• Euphoria Ridge: camas and root digging, cultural plants, and historic landscape. 2006
  Presentation and workshop. Coquille Indian Tribe 10th Annual Cultural Preservation Conference:
  Cultural Preservation on the South Coast; Ten years in Review. Mill Casino, North Bend OR.

SELECT PUBLICATIONS

• Environmental History of Euphoria Ridge; A Case Study of Ethnobotany in Traditional Resource Management. 2007.
  Documents 3 different cultures’ traditional resource use across time at one site in Oregon’s Southern Coast.

• Euphoria Ridge Cultural Plant Handbook. 2007. On file, Coquille Indian Tribe Cultural Resources Program,
  North Bend, Oregon.

  North Bend, Oregon.

  Oregon State University.

• Coquille Tribal Land Parcel #7 Euphoria Ridge Cultural Resources Fieldwork and Botanical Survey. 2003.
  Report on file, Coquille Indian Tribe Cultural Resources Program, North Bend, Oregon.

COMMUNITY BACKGROUND/ HIGHLIGHTS

• Volunteer, Committee Member 2006
  Sustainable Forestry Partnership
  *Coordinated and facilitated sessions of Discovery Seminar: Approaching Sustainability in Managed Forests. Sponsored by national network of industry experts, university, non-government organizations, and government agencies. Explored science, economics, and policy of contemporary forest issues.

• Community Volunteer 2000-2001
  City of Corvallis
  *Mediated successful name change of Squaw Creek to a mutually acceptable Calapooia Indian term for female elders; Dunawi Creek.
  *Involved cross-cultural communication with the Confederated Tribes of Siletz, and the Confederated Tribes of Grande Rhonde, as well as government officials at the state and federal level of the Geographic Names Board, the Benton County Board of Commissioners, and the Corvallis City Council.

• Intern Summer 2002
  Coquille Indian Tribe
  *Worked in the Tribal offices and on site at reservation wetlands and reservoirs.
  *Sorted, filed, and classified Environmental Protection Impact documentation.

HONORS AND AWARDS

• 2001 Volunteer of the Year
  National Association for the Advancement of Colored Peoples, Corvallis Oregon Branch

• 2000 Member, Inducted into Golden Key National Honor Society
MICAH GIBSON

15900 HWY 101 N
Klamath, CA 95548

707-482-1822 ext 1002

YTEP Interim Director, Micah Gibson has been with the Tribe since 2003 and has primary responsibility for managing YTEP’s Water Division. Mr. Gibson administers the Yurok Tribe’s Water Quality Monitoring, Assessment, and Regulatory Programs in accordance with Tribal and grant funded program goals and objectives. In this role, he manages inter-agency and inter-Tribal water quality monitoring efforts and facilitates surface and ground water quality monitoring, assessment, and regulatory activities. He also works with numerous outside agencies on a variety of management and regulatory programs and policies to protect water resources with the Yurok Reservation and the Klamath Basin. Mr. Gibson is tasked with administration, management, and oversight of technical consultants and analytical laboratories. Mr. Gibson’s previous positions with the Tribe include Environmental Technician, Air Quality Specialist, and Hydrology Specialist. While in these positions, he administered 103 (CAA) grants and was primarily responsible for developing air quality monitoring and standards. Mr. Gibson serves on several panels and committees, including the Klamath Hydroelectric Settlement Agreement Interim Measure Implementation Committee (IMIC), Technical Advisory Committee (TAC) for IMIC and the Klamath Basin Tribal Water Quality Workgroup.
