CHANGES TO THE ADVERTISEMENT FOR QUOTES

1. General – Replace with:

The work to be performed under these provisions shall include the furnishing of all plant, labor, tools, equipment, and material necessary to conduct geotechnical engineering investigations for proposed water facility structures, including three water storage tanks and a treatment facility for Yurok community Water Systems.

Two 60,000-gallon bolted steel tanks are planned to be installed, one in the Weitchpec water system, and one in the Ke-Nek water system. An additional 20,000-gallon tank and water treatment facility are also planned for the Ke-Nek water system.
2. **Locations and Access - Correction to Site 2:**

   **Site 2:** The Ke-Nek water treatment facility is located 1.65 miles North of Martin’s Ferry Bridge on Tulley Creek Rd, near the existing 15,000-gallon tank. The planned location for this building is shown in Exhibit B, at a site located North of the current water storage tank. It is accessed through a short dirt driveway, well accessible to most vehicles. The planned coordinates are [41.24151° N, 123.777° W].

3. **Locations and Access – Add an additional site:**

   **Site 4:** The Ke-Nek 60,000-gallon tank is located 1.2 miles North of Martin’s Ferry Bridge on Tulley Creek Rd. The planned location for the tank is on an access road west of the Ke-Nek tribal offices. The planned coordinates of the tank are [41.21829° N, 123.7772° W]. The access road is both dirt and gravel with mild brush, well-accessible to four-wheel drive trucks.

4. **Responses – Replace with:**
